

JEEVIGHA S

POWER BI DEVELOPER - 1.8 YEARS

KMU TECHGRID SOLUTIONS

Avadi, Chennai – 600054 | 📞 +91 9344861441 | ✉️ jeevigha2003@gmail.com

CAREER OBJECTIVE

Analytical and Detail-oriented B.E Computer Science graduate with hands-on experience in Data Analytics. Demonstrated ability to deliver actionable insights through interactive dashboards, helping business teams make informed decisions faster. Skilled in collaborating with cross-functional stakeholders to define requirements, streamline reporting processes, and ensure high-quality solutions. Seeking a fulfilling position in challenging and dynamic field of data analytics that offers growth opportunities and allows me to utilize and enhance my skills, experience, and abilities while being resourceful, innovative and flexible.

TECHNICAL SKILLS

- Power BI Desktop
- Power BI service
- Power Query Editor
- Data visualization & Data Modeling
- DAX Function
- SQL (ORACLE)
- Advanced Excel
- Python
- Pandas & NumPy

PROFESSIONAL EXPERIENCE

- Having **1.8 years** of total experience In **IT Industry** with **1.8 years** of relevant experience in **BI tools** like **Power BI Desktop, Power BI Service and SQL Server**.
- Hands on experience on **Power BI Desktop and Power BI Service**. Development and worked on Creating **Reports & Dashboards**.
- Developed effective **Reports & Dashboards** and Worked on existing dashboards and done enhancements as per the **Clients Requirement**.
- Designed **Data Modeling** and Maintained relationships between data using **different Joins**.
- Defined **KPI's** to gauge the company's overall long term performance. Writing **reports** to share knowledge gained from the complied data.
- Cleaning the data and improving the data quality by **removing duplicates, errors, or outliers**.
- Skilled in writing complex **DAX** formulas to derive meaningful insights from raw data.
- Experience in **extracting, transforming, and loading data** from diverse sources using **Power Query, SQL, and other data integration tools**.
- Familiarity with integrating Power BI with various data sources such as **Excel, SharePoint, SQL Server, and cloud platforms like Azure**.
- Experienced in creation of **Appending and Merging Queries**. Published and Shared Reports into **Power BI Service**. Installing & Configuring a **Gateway Connectivity** and giving Access to **On-Premises data Gateway**.
- Experienced in **deployment and Scheduling Refresh**. Experienced on **SQL queries** relevant to Power BI.

EDUCATION

B.E. Computer Science Engineering S.A Engineering College, Chennai	JUNE 2020 – MAY 2024 (COMPLETED) CGPA: 8.49
Higher Secondary Certificate (HSC) St. Joseph Anglo Indian Hr. Sec. School, Chennai	JUNE 2019 – MAY 2020 (COMPLETED) Percentage: 51.5%
Secondary School Leaving Certificate (SSLC) St. Joseph Anglo Indian Hr. Sec. School, Chennai	JUNE 2017 – MAY 2018 (COMPLETED) Percentage: 80.8%

LANGUAGE

- Tamil
- English

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Time Management
- Adaptability & learning agility
- Effective Communication
- Decision Making

PROJECTS

Project - 1

Client : Vorto

Domain : Supply Chain

Environment : Power BI & Oracle

DESCRIPTION

Vorto aims to help businesses make their supply chains more economically and environmentally sustainable. The company's automated supply chain management platform features a suite of products that flag inefficiencies and develop intuitive solutions using artificial intelligence. And it helps users streamline and automate their raw material sourcing, procurement and shipping processes.

RESPONSIBILITIES

- Design, develop and maintain efficient and accurate ETL pipelines.
- Interacting with design & analysis team to understand business requirement and complexity of Reports.
- Analysis and development of complex Reports, Dashboards and DAX Queries.
- Create charts and data documentation with explanations of algorithms, parameters, models and relationships.
- Understanding of the data, use filters and visualizations Analyze current ETL procedures to define and create new systems.
- Effectively use Power Query and DAX for calculations.
- Extensive experience developing real world Power BI dashboards Working knowledge in DAX and M language.
- Define key performance indicators KPIs with specific objectives and track them regularly Analyze data and display it in reports to aid decision-making.
- Ensures data security and refresh schedules are implemented.

Project - 2

Client : Byram Healthcare

Domain : Healthcare

Environment : Power BI & SQL Server

DESCRIPTION

Byram Healthcare Centers, Inc. operates as a medical supplies company. The Company offers disposable medical supplies for diabetes, ostomy, wound care, urology, incontinence, wound care, and enteral nutrition. Byram Healthcare serves patients in the United States.

RESPONSIBILITIES

- Responsible for gathering requirements for Power BI Reports from business users and executives.
- Present the analysis to internal and external teams and Explain data from a business perspective and relevance to Key Performance Indicators (KPI).
- Effectively use Power Query and DAX for calculations. Involved in data cleaning and data preparation using Power Query Editor.
- Build Pages with Slicers for Quick filters and generate report-level filters while handling vast volumes of data.
- Creating different visualizations using Bars, Lines, and Pies, Maps, Highlight tables and matrices.
- Worked on On-Premises Gateway to refresh the data sources and schedule the data.
- Publishing the data source into the Power BI Server and scheduling the data sources.
