## Summary

---

Creative UI/UX designer with 3+ years of combined experience in freelance and GIS design, creating intuitive, data-driven solutions that boost engagement and business growth. Proficient in Figma, Adobe XD, and AI-powered design tools to streamline research, prototyping, and user testing, with strong skills in front-end development and accessibility design. Recognized for delivering impactful, user-focused interfaces through collaborative, results-oriented problem-solving.

## Skills

---

**Design Tools:** Figma, Adobe XD, Sketch, Figjam, Miro, Notion, Maze, Hotjar, Full Story, Optimal Workshop, Zeplin, Stark, ProtoPie, UXPin, Lookback, Framer, Illustrator, Canva, Photoshop, Web flow, Usability Hub, VS Code, AutoCAD, Smallworld.

**AI Tools:** Galileo, Uizard, Figma AI, Adobe Firefly, Midjourney, ChatGPT, Perplexity, Stitch, Axure RP Lummi AI, Spline Recraft.

**UX Skills:** User Research, Wireframing, Prototyping, Usability Testing, Mockups, User Flows, Design Thinking, Responsive Design, Design Systems, Accessibility, Visual Design, Interaction Design, Information Architecture.

**Technical:** HTML, CSS, Responsive Layouts, Developer Handoff.

**Soft Skills:** Empathy, Collaboration, Problem-Solving, Critical Thinking, Time Management, Adaptability.

## Experience

---

### UI/UX Designer

Hyderabad, India

#### Freelance

Apr 2025 – Till Date

- Designed dashboards, websites, and mobile applications from concept to high-fidelity mockups, usability and engagement.
- Conducted user research, surveys, and usability testing to identify pain points and refine user flows, achieving a 40% boost in user satisfaction.
- Created wireframes, interactive prototypes, and responsive layouts in Figma, ensuring consistent user experiences across devices.
- Delivered clear design documentation and developer-ready specifications, enabling seamless implementation and faster handoff.

### GIS Designer

Hyderabad, India

#### Cyient

Sep 2022 – Apr 2025

- Designed and delivered enterprise-level GIS visualizations and user interfaces, improving data accuracy and usability for stakeholders.
- Partnered with cross-functional teams to integrate GIS with SAP systems, ensuring alignment with enterprise workflows.
- Produced interactive maps and data-driven visual dashboards, supporting better decision-making and operational efficiency.
- Authored detailed documentation and process guidelines, enabling consistent adoption of GIS standards across projects.
- Recognized with Best Employee & Most Valuable Performer awards for design innovation, collaboration, and delivery excellence.

### UI/UX Designer

Remote

#### Internship at Rablo.in

June 2024 – Sep 2024

- Collaborated with product managers, developers, and stakeholders to design end-to-end UI/UX solutions for a tutoring platform.
- Produced high-fidelity prototypes, wireframes, and responsive layouts in Figma and Adobe XD, streamlining design-to-development workflows.
- Conducted user research and usability testing, integrating feedback to improve accessibility and engagement across web and mobile.
- Developed design documentation, user flows, and specifications, ensuring clear handoff and consistent implementation.

## Education

---

**Amrita Sai Institute of Science and Technology**

B. Tech (Electrical & Electronics Engineering)

**Paritala, Andhra Pradesh**

**- June 2019 to May 2022**

## Projects

---

### **Sanozo** App (Case study)

- Lead full-spectrum UX design as a sole practitioner, conducting user research, defining information architecture, and crafting end-to-end wireframes and high-fidelity Figma prototypes to articulate the complete user journey.
- Designed and implemented intuitive UI components and interactive flows, ensuring consistency with brand identity and optimizing usability through iterative wireframing and usability testing.
- Designed a cohesive visual system with typography, color palette, iconography, and motion guidelines and delivered detailed design specifications to developers, resulting in a polished UI that improved task completion rates and engagement.

### **Nex AI** (AI Chatbot)

- Designed a high-fidelity mobile prototype, streamlining AI-driven conversations and enhancing overall usability.
- Developed user flows and wireframes with Figma & Illustrator, applying human-centered design principles to improve clarity, accessibility, and engagement.
- Developed custom iconography and visual assets using Photoshop & Illustrator, ensuring a cohesive, scalable, and professional design system across the application.
- Delivered a polished case study project leveraging Figma and Adobe tools, strengthening portfolio credibility and demonstrating expertise in UI/UX, prototyping, and AI-integrated product design.

### **Rablo.in** Website

- Crafted Seamless User Journeys Designed intuitive and streamlined user flows to enhance platform navigation, ensuring effortless interactions for both students and tutors.
- Developed Engaging Visual Interfaces Created aesthetically appealing and responsive UI designs, tailored to maximize accessibility and engagement across all devices.
- Implemented Data-Driven Design Solutions Conducted extensive user research and usability testing to identify key improvements, resulting in a 30% boost in user satisfaction and retention.

## Certification

---

- UI/UX Designer Internship in **Rablo.in** unique online tutoring platform.
- Design Foundations & Introduction to Generative AI course by **Google Cloud**.
- Design Thinking Practitioner, Design Thinking, Co-Creator and Design Thinking -Team Essentials for AI by **IBM**.
- UI/UX Designer & Graphic Design with Photoshop Course Comprehensive by **Great Learning Academy**.
- Foundations of User Experience (UX) Design Course Comprehensive by **Coursera**.
- Website UI/UX Designing using ChatGPT certification by **Simplilearn**, & Create an App UI/UX with AI certification by **Juno**.

## Measurable Achievements

---

- Awarded Best Employee on the PECO - Missing Structures (Exelon) Project for exceptional performance.
- Named Most Valuable Performer (Bronze Team) for outstanding contributions to the Exelon and AusNet projects, showcasing excellence in teamwork and project delivery.
- Received the Best Work Award at Rablo.in for exceptional creativity, innovation, and dedication in delivering impactful projects.
