## SOFTWARE ENGINEER

Results-driven Software Engineer with strong expertise in designing, developing, and maintaining scalable web applications. Skilled in Java, Servlets, JDBC, SQL, Python, Linux, and object-oriented programming, with a solid understanding of the software development life cycle (SDLC). Experienced in building dynamic, user-focused applications with efficient backend logic and clean architecture. Adept at problem-solving, debugging, and collaborating in agile environments to deliver reliable, high-quality software solutions. Passionate about continuous learning, clean code practices, and optimizing performance across systems.

---

## PROJECTS

### Ecommerce website

Developed a robust e-commerce website using Java Servlets, JDBC, and a relational database. Implemented core functionalities including user registration, product catalog management, shopping cart, secure payment gateway integration, and order tracking. Ensured data integrity and security through proper data validation and encryption techniques.

## TECHNICAL SKILLS

- Technical Environment Knowledge (Preferred)
  - Operating Systems: Basic Linux commands
  - Databases: SQL Server
  - HTML
  - SQL
- 

## EDUCATION

### Master of Computer Applications

KL University

- Specialization in Data Science

CGPA:9.1

Aug 2022 - Apr 2024

---

## Languages and Tools

- Python
  - Java
  - GIT
  - Linux
  - ms word
  - ms excel
- 

## Soft Skill

- Team Player
- Communication Skills
- Problem Solving
- Self Motivated
