

# Nilaf Ahamed R

Full-Stack Web Developer — MERN Stack

nilafiphone@gmail.com +91 96262 02630 [GitHub](#) [LinkedIn](#) [Portfolio](#)

## Professional Summary

---

Full-Stack Web Developer specializing in the MERN stack with hands-on experience building scalable applications, automation tools, and modern, responsive UI interfaces. Strong in REST API development, real-time systems, and end-to-end product delivery. Proven ability to design optimized solutions, integrate third-party APIs, and build production-ready features with performance and reliability as priorities.

## Technical Skills

---

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, TailwindCSS, Redux, Framer Motion

**Backend:** Node.js, Express.js, REST APIs

**Database:** MongoDB, Mongoose

**Cloud & Tools:** Git, GitHub, Vercel, Railway, Render, Netlify, Cloudinary, Postman

**Other:** JWT Auth, OAuth 2.0, Razorpay, WhatsApp Automation, Webhooks, Serverless Functions

**Soft Skills:** Problem-Solving, Communication, Collaboration

## Work Experience

---

### Full-Stack Developer Intern — SiteGalleria Pvt Ltd, Bangalore (Sep 2025 – Present)

- Developing automation tools and full-stack applications using React, Node.js, Express, and MongoDB.
- Building dashboards, backend services, and reusable components for production use.
- Optimizing API workflows, improving performance, and enhancing UI/UX using modern practices.
- Collaborating with senior developers to implement scalable features and automation logic.

## Projects

---

### WhatsApp Business Automation Platform — Full Stack (2025)

- Developed a complete WhatsApp automation system using React.js, Node.js/Express, MongoDB, and whatsapp-web.js.
- Implemented multi-session handling, QR-based authentication, and bulk messaging for 1000+ recipients.
- Achieved 95%+ delivery accuracy via intelligent load balancing and session lifecycle tracking.
- Added Excel batch messaging, media support, event-based webhooks, and automated session polling.
- Designed a modern dashboard with TailwindCSS, animations, and glassmorphism UI.

### Slack-Style Team Messaging Platform (Sep 2025)

- Built a real-time messaging platform with channels, group chats, and OAuth 2.0 authentication.
- Implemented CRUD messaging: send, edit, delete, and schedule.
- Integrated Vercel serverless functions for secure token exchange and CORS handling.
- Developed responsive UI with seamless transitions and optimized state management.

### DesignMyFit — E-Commerce Platform (Aug 2025)

- Created a men's fashion e-commerce app with JWT authentication and role-based access.
- Added Razorpay payments, wishlists, order tracking, advanced product filters, and search.
- Developed an admin dashboard for product CRUD, analytics, and order management.
- Integrated an AI chatbot for customer assistance and built a mobile-first responsive design.

## Education

---

**B.Com (Computer Applications)** — Mohamed Sathak College (2020–2023), CGPA: 7.2

**HSC** — Muhyiddheeniya Matric HSS (2018–2020), 60%

**SSLC** — Dheeniya Matric HSS (2017–2018), 65.4%

## Certifications

---

- Full Stack Web Development (MERN) — Error Makes Clever
- Prompt Engineering Certification
