PROFILE

Aspiring Frontend Developer with a strong foundation in HTML, CSS, and JavaScript. Proficient in designing responsive, user-friendly websites and implementing interactive UI elements. Passionate about leveraging creativity and technical skills to build seamless web experiences. Currently pursuing a BSc in IT with hands-on experience in developing web applications and replicating website designs.

PROJECT

Rest Country API

- Built a responsive web application that fetches data from the Rest Countries API to display details of countries.
- Features include search by country name, filtering by region, and dynamic rendering of country information (e.g., population, region, capital).
- Developed a detailed country page displaying additional information like subregion, currencies, and languages.
- Utilized HTML, CSS, and JavaScript for design, interactivity, and API integration.
- Emphasized user-friendly design and smooth navigation between pages.

PROJECT LINK : <http://webworkin.netlify.app>

eCommerce Website

- Developed a fully functional eCommerce website with various pages, including About, Cart, Blog, Contact, Shop, and Product.
- Implemented interactive elements and smooth navigation using JavaScript, enhancing the user experience.
- Designed responsive layouts using HTML and CSS to ensure cross-device compatibility.
- Built a clean and user-friendly interface with a focus on simplicity and accessibility.
