### \*Web Development Intern\*

Brain O Vision Virtual Internship (Sep2023- Nov2024)

- Built web applications using HTML, CSS, and JavaScript
- Developed problem-solving skills through project work

## PROJECTS:

### **\*Meat Delivery Application\***

- Developed a full-stack meat delivery application
- Utilized Java, java script, HTML and CSS and SQL for backend and frontend development
- During the pandemic times, most people preferred to have fresh meat home delivery without visiting shops. Day by day there is a great demand for the online purchase of groceries, food, and milk. The healthy meat cuts are delivering to the doorsteps of the customers at their scheduled time. When discussing the development of meat delivery app, we have to focus on the target audience; We have to build an advanced platform integrated with navigational functionality.
