PROFILE SUMMARY

- Skilled Data Analyst with hands-on experience in **Power BI, SQL, Excel, and Python**, specializing in transform raw data into actionable insights.
- Proficient in building **interactive dashboards, performing EDA**, and applying **DAX, data modeling, and data visualization techniques** for real-world projects.

SKILLS

- **Technical Skills** - SQL, Python, Advanced Excel, Power BI, NumPy, Pandas, Seaborn
- **Analytical Abilities** - Data Cleaning, Data Modeling, Exploratory Data Analysis(EDA), Descriptive Statistics

INTERNSHIP

Data Analytics Intern | Cybrom Technology Pvt LTD Bhopal

August 2025 – Present

- Performed **data cleaning, transformation, and ETL operations** to prepare large datasets for analysis.
- Conducted **Exploratory Data Analysis (EDA)** using Excel and SQL to identify trends, and performance gaps.
- Built **interactive Power BI dashboards** to visualize KPIs, sales performance, and operational metrics.
- Built reports and improved data workflows, ensuring higher accuracy and faster decision-making.

PROJECTS

- **Coffee Shop Sales Analysis** | Advanced Excel, Pivot Table, Slicers, Charts
Designed an interactive Excel dashboard to analyze sales performance, profit trends, top-selling categories, and regional sales using Pivot Tables, Charts, and Slicers - enabling data-driven decision-making for small business operations.
- **Cricket World Cup 2023 Analysis Dashboard** | EDA, Power BI, Power Query Editor, DAX, Data Modeling
Developed a multi-page Power BI dashboard to analyze team-wise, batsman, and bowler performance using interactive slicers, KPIs, and visuals; implemented DAX measures, data modeling, and Power Query for real-time filtering and insights across match results and player stats.
- **Retail Inventory & Sales Analysis Dashboard** | Excel, SQL, Power BI
Identified stockout, overstock, and sales visibility issues within a retail inventory dataset. Performed data cleaning and analysis using Excel and SQL to uncover sales trends and inventory gaps. Developed interactive Power BI dashboards showcasing KPIs such as stock levels, category performance, and demand trends.

EDUCATION

- **B.Tech (CSE – AIML) Technocrats Institute of Technology, Bhopal** | CGPA – 7.74 2024

CERTIFICATION

- Tata Data Visualisation: Empowering Business with Effective Insights April 2025 – May 2025
- Exploratory Data Analysis Python 3.x - Infosys Springboard May 2025 - Jun 2025
- Data Analytics Certification By Cybrom Technology Pvt Ltd September 2024 - June 2025
