Work Experience

- Software Engineer
Intouch CX
2 years of experience
19/11/2023 - present

I am a dedicated and detail-oriented Software Engineer with 1 year 4 months of hands-on experience in designing, developing, and optimizing scalable web applications. I have worked across the full software development lifecycle, from understanding requirements and writing clean, modular code to testing, debugging, and deploying features. I am proficient in modern frontend and backend technologies, and I collaborate effectively with cross-functional teams to deliver high-quality solutions on time.

Over the past year, I have gained strong experience in JavaScript, React, HTML, CSS, API integration, Git, and basic backend development. I enjoy solving complex problems, improving performance, and building user-friendly interfaces. I consistently focus on writing clean code, improving system reliability, and contributing ideas that enhance product functionality.

I am now seeking an opportunity where I can take on more responsibility, contribute to impactful projects, and grow as part of a dynamic engineering team.
