## CAREER OBJECTIVE

Enthusiastic and detail-oriented Computer Science graduate specializing in AI & ML. Skilled in Python, SQL, and Azure, with hands-on project. Eager to start a career as a Data Engineer or Software Developer, where I can contribute my problem-solving skills, adaptability, and passion for technology to deliver value and grow within the organization.

## TECHNICAL SKILLS

Programming	Python, C
Databases	Sql Database Management
Cloud	Microsoft Azure Cloud services
Tools	GitHub, VS Code
Other	Problem-solving, Communication, Teamwork

## ACADEMIC PROJECT

**Project Title:** Identifying Student Profiles with Online Judge System using Explainable AI

“In this project, I developed a system that uses an Online Judge to evaluate students’ coding submissions and then applies Explainable AI to classify students into different learning profiles. The main idea is not only to check whether the code passes or fails, but also to understand how a student is performing and why they perform that way”.

- Built a system to analyze student performance using Explainable AI techniques.
- Applied Python, SQL, and ML libraries for generating performance reports.
- Enhanced understanding of model explainability and profiling through practical data analysis.

## EDUCATION

**B.Tech in Computer Science (AI & ML)**, Sai Spurthi Institute of Technology, Sathupalli

Graduated: 2025

CGPA: 7.2 /10

**Intermediate (MPC)**, V.K.D.V.S Junior College, Aswaraopeta (2021)

Percentage: 65%

**SSC**, Govt. High School, Aswaraopeta (2019)

CGPA: 8.0 /10
