## PROFESSIONAL SUMMARY

---

Results-driven Test Automation Specialist with 3.10 years of experience in manual & automation testing, test planning, and quality assurance. Proven ability to identify and report defects and collaborate with cross-functional teams to ensure high-quality software delivery.

## SKILLS

---

- |                                 |                     |                      |
|---------------------------------|---------------------|----------------------|
| • Functional Testing            | • Hp ALM            | • Visual Studio      |
| • Test Planning                 | • Agile Methodology | • Locators           |
| • Test Execution                | • Selenium          | • Java               |
| • Defect Reporting              | • Cucumber          | • Postman            |
| • Test Strategy                 | • TestNG            | • QA Testing         |
| • Test Design                   | • GitHub            | • Manual Testing     |
| • Test Cases                    | • Maven             | • Automation Testing |
| • Jenkins                       | • Gherkins          | • MySQL (Basics)     |
| • Process Design Document (PDD) | • Eclipse           |                      |

## WORK EXPERIENCE

---

**Quality Assurance Engineer | Profolo | Hyderabad | Mar 2025 - Present**

### Project: Profolo Application

- Experienced in Functional, User Interface, Regression, Sanity testing.
- Sound Knowledge in QA Testing Methodologies like Agile, Scrum, Kanban and Waterfall.
- Hands on experience on writing and designing feasible test suite, test cases , QA, Documentation, Test Strategy, Integration within the testing scope and raising defects involved in the implementations after gathering requirements from clients.
- Conducted thorough manual testing of web applications, identifying and documenting defects to facilitate timely resolution.
- Collaborated closely with developers and business analysts to ensure requirements were accurately translated into test cases and scenarios.
- Experience of Working extensively in Agile Testing Environment (Agile/Scrum model) and good expertise in attending scrum calls & Sprint Planning, Reviews and Retrospective meetings.
- Supported cross-functional teams on their ad hoc testing requests.
- Experience in working with Test Driven Development (TDD/BDD) by writing gherkins language in Cucumber tool creating feature files, Step definitions & runner files.
- Managed environment deployments using Jenkins, ensuring seamless transitions and system integrity.
- Used Git & GitHub for maintaining the version controlling. Also integrated with Jenkins to run the latest version of code in the background.

**Project: XOps & Cryptoforce**

- Report bugs in HP ALM & JIRA identified during the test phase.
- Developed the Automation Test Scripts in Selenium Web Driver using Java based on the design pattern Page Object Model for reusability.
- Enhanced Test cases using Java programming features and TestNG Annotations.
- Created Test cases using Element locators and Selenium Web driver methods.
- Having good knowledge of XPATH, Locators, POM, POI for excel, Maven, Handling list box and Handling frames.
- Implemented GitLab CI/CD pipelines to automate build, test, and deployment processes.
- Utilized AWS services including EC2, S3, Load balancer and RDS to architect scalable solutions, achieving high availability and cost efficiency
- Optimized CI/CD workflows on GitLab to leverage AWS Lambda for serverless application deployments, enhancing scalability and performance.
- Managed and administered AWS infrastructure, including EC2 instances, S3 buckets, and VPC configurations.
- Experience while creating GitLab Runner & installing Gitlab runner on EC2 Instance.
- Implemented traffic routing policies and load balancing configurations distribute incoming traffic across multiple endpoints.

## **CERTIFICATIONS**

---

- Selenium
- AWS Certified Solutions Architect – Associate (Issued by Amazon).

## **EDUCATION**

---

**Bachelor of Technology (B. Tech - ECE) | 2017-2021**

Sir C R Reddy College of Engineering affiliated with JNTUK
