EDUCATION

MGM'S College Of Computer Science & IT, Nanded
BCA – Bachelor Of Computer Application - **CGPA – 8.5**

2022 – 2025
Nanded, Maharashtra

CAREER OBJECTIVE

Motivated and detail-oriented Java Developer fresher with strong knowledge of Java, Spring Boot, REST APIs. Seeking an opportunity to apply software development skills in a dynamic team environment and build scalable, secure, and user-friendly applications.

PROJECTS

Student Management System

Tech Stack: Java, Spring Boot Data JPA, Spring Boot MVC, Oracle

- Built a **CRUD-based** system for managing student records.
- Integrated **Spring Data JPA** with **Oracle** for persistent storage.
- Implemented MVC architecture for clean separation of concerns.

Actor Information Management System

Tech Stack: Spring Boot, Spring Data JPA, Oracle, REST API, Postman, Swagger

- Developed a **RESTful CRUD** application to manage actor details including name, age, Remuneration, and Status.
- Used Spring Boot for application setup and Spring Data JPA for ORM-based database access.
- Integrated with **Oracle** Database to store and manage actor data persistently.
- Built **REST APIs** for adding, updating, deleting, and fetching actor records.
- Documented APIs using **Swagger UI** for interactive testing and sharing.
- Validated API functionality using **Postman**, ensuring smooth integration and error handling.

TECHNICAL SKILLS

- **Programming Languages:** Java, J2EE, SQL, HTML, CSS
- **Frameworks:** Spring Core, Spring Boot, REST APIs, Hibernate With JPA, Spring Boot MVC & Microservices
- **Database:** Oracle
- **DevOps & Tools:** Git, GitHub, Maven, Postman, Swagger, Docker (basic), Jenkins (basic), K8S(basic), AWS (basic), Agile Methodology, Log4j, SLF4J, JUnit .
- **Concepts:** OOP'S, JDBC, Exception Handling
- **Operating System:** Windows

CERTIFICATIONS

- Programming With Java – Infosys Springboard
- ReactJS for Beginners – Infosys Springboard

STRENGTHS

- Strong problem-solving and analytical skills
- Quick learner and adaptable
- Good understanding of SDLC and agile practices
