

NANGEDDA BHAVANI

Java Full Stack Developer

+918074412794 | nbhavani313@gmail.com | www.linkedin.com/in/nangeddabhavani | www.github.com/Nangedda-Bhavani

CAREER OBJECTIVE

Enthusiastic Java Full Stack Developer with hands-on experience in building web applications using Java, Spring Boot, Hibernate, JPA, and REST APIs. Skilled in developing micro services, integrating MySQL databases. Basic knowledge of frontend technologies like HTML, CSS and JavaScript. Good at team collaboration, debugging, and problem-solving.

EDUCATION

Bachelor of Technology (B.Tech) in CSE
Ellenki College of Engineering and Technology, CGPA: 7.04

Aug 2020 — Sep 2024
Hyderabad, TS

Board of Intermediate Education in MPC
Sri Chaitanya Junior College, Percentage: 93%

Jun 2018 — Mar 2020
Sangareddy, TS

SSC
Gandhi Vidyalaya, Percentage: 87%

Jun 2017 — Apr 2018
Machilipatnam, AP

SKILLS

- **Programming Languages:** Core Java, Advanced Java
- **Frontend Technologies:** HTML, CSS, Bootstrap
- **Scripting Languages:** JavaScript
- **Database:** MySQL
- **Server – Side Programming:** Servlets, JSP
- **Connectivity:** JDBC, Hibernate, JPA
- **Frameworks:** Java Collections, Spring, Spring MVC, Spring Boot, Micro services
- **Development Tools & IDE:** Eclipse IDE, VS Code, Spring Initializer, Postman
- **Other Skills:** MS Office (Word, Excel, PowerPoint), Typing

PROJECTS

UserInfoPortal | Java, Servlets, JSP, JDBC, MySQL, HTML, CSS

Dec 2024

- Developed a dynamic web-based application for managing student records using Java Servlets and JSP. Implemented core CRUD operations (Create, Read, Update, Delete) for student details such as personal info, marks and course enrollments. Used JDBC for database connectivity and MySQL as the backend.

EmployeePortal | Java, Spring MVC, Spring JDBC, MySQL, JSP, HTML, CSS

Jan 2025

- Developed a web-based Employee Management System using Spring MVC architecture to manage employee records with full CRUD functionality. Integrated Spring JDBC for database operations and used MySQL to store employee details.

RESTful Employee Management API | Java, Spring Boot, Spring Data JPA, MySQL, REST, Postman

Mar 2025

- Developed a RESTful CRUD API using Spring Boot to manage employee records such as name, department, and salary. Implemented endpoints for Create, Read, Update, and Delete operations using standard HTTP methods (GET, POST, PUT, DELETE). Used Spring Data JPA to interact with a MySQL database with minimal boilerplate code. Tested API functionality using Postman, validating JSON request/response bodies and error handling.

CERTIFICATIONS & TRAINING

- Completed hands-on training in full-stack development, including front-end and back-end technologies
- Gained experience in building web applications using java, Spring Boot, SQL and related technologies
