

YASH INTODIA

Full Stack Web Developer(MERN)

☎ +91-8005782326 ✉ yashintodia7@gmail.com in linkedin.com/in/yash-intodia 🌐 github.com/yashintodia7

PROFILE

Results-driven **Full Stack Web Developer** with 2+ years of experience, including 1+ year working with the **MERN Stack Developer** (React.js, Node.js, Express.js, MongoDB) and 1+ year building dynamic web solutions using React.js, WordPress, and PHP. Skilled in developing responsive interfaces, optimizing front-end performance, and integrating RESTful APIs. Experienced in improving WordPress and Shopify websites through layout optimization, SEO practices, and performance enhancements. Committed to writing clean, maintainable code and delivering user-focused digital solutions.

EXPERIENCE

Software Development Engineer at Obbserv | MERN Stack, WordPress, Shopify **July 2024 - Present**

- Developed and deployed scalable full-stack applications using the MERN stack, ensuring high performance and maintainability.
- Built and optimized React JS components with reusable hooks and state management, reducing development time by 25%.
- Enhanced WordPress and Shopify websites by optimizing layouts, improving site speed, implementing SEO best practices, and ensuring fully responsive designs to boost search visibility and customer engagement.
- Optimized application performance by identifying bottlenecks in React components and server-side processes, improving page load speed and user experience.

SDE at Taldar Tech Consultancy | Javascript, React, WordPress, PHP **April 2023 - June 2024**

- Built dynamic and high-performance user interfaces using React and JavaScript, improving load times and interactivity.
- Integrated WordPress as a headless CMS with React to deliver dynamic content through REST APIs.
- Developed backend features using PHP to handle form submissions, data processing, and API endpoints.

PROJECTS

Ecommerce Application | HTML, CSS, Bootstrap, Reactjs

- Developed an e-commerce platform supporting a substantial daily user base with secure user authentication, advanced product filtering, and a seamless checkout process.
- Integrated database management and API connectivity to improve order processing efficiency by 35%.

Food Delivery Application | HTML, CSS, React JS , Node JS, MongoDB

- Designed a full-stack solution and implemented features for browsing restaurants, viewing menus, and placing orders.
- Implemented secure JWT-based authentication and optimized backend to improve response time by 25%.
