PROFESSIONAL SUMMARY

Results-driven Backend Developer focused on building secure, efficient, and reliable enterprise applications.

EXPERIENCE

Photon Softwares

Ghaziabad, Uttar Pradesh

Software Engineer

May 2025 – Present

- Photon Software delivers tailored digital transformation solutions—including Odoo ERP, Microsoft 365 Central, POS systems, and custom application development—specialized for the retail sector. It builds future-ready and scalable technologies that enhance customer and employee experiences while driving sustainable business growth.

Karexpert Technologies Pvt. Ltd.

Gurugram, Haryana

Software Engineer

January 2022 – June 2023

- KareXpert provides an AI-driven, cloud-based unified healthcare platform that improves hospital efficiency, enhances patient care, and delivers enterprise-grade performance with near-zero downtime.

PROJECTS

Oman Loyalty Solution | Spring Boot, REST API, Microservices

- Built a microservice-based loyalty platform for Oman, where customers earn and redeem points, view campaigns, and merchants manage user engagement and promotions.

BRK Cart System | Java 8, Spring Boot, REST, Spring Security

- BRK manages a complete MLM workflow, including user registration, wallet handling, payouts, and product operations.
- It provides secure REST APIs, role-based access, and automated business logic to support scalable network marketing platforms.
