## SUMMARY

---

My goal is to create something which can benefit us without any prerequisites. I would like to contribute to open source and develop new tech that can pave the path to machine learning.

## WORK EXPERIENCE

---

### AICTE Internship

Aug 2023 - Oct 2023

Developed a mental fitness tracker using machine learning models.

## SKILLS

---

- **Programming Languages:** Python, C, C++, Html, CSS, React, JS, SQL
- **Software Development:** Object-Oriented Programming (OOP), RESTful APIs,

## PROJECTS

---

### Note take

Built a note-taking application that allows users to create, edit, and save notes for quick reference and personal organization.

### TMMovies

Developed a site to rate the current month movies using Django framework and different front-end technologies.

### Data Table Project

Created a data table application with CRUD operations, searchable pages, and page navigation for efficient data management.

## EDUCATION

---

2021 - 2025	<b>Medicaps University</b>	(CGPA: 9.11)
2020	<b>12th, Prestige Public School</b>	(Percentage: 90.8)
2018	<b>10th, Prestige Public School</b>	(Percentage: 90.2)

## ACHIEVEMENTS

---

- 1) 2\* on Codechef
- 2) Achieved 16th rank in Mpsedc exam
