

# Sakshi Malave

## Software Developer

Email: [sakshimalave2303@gmail.com](mailto:sakshimalave2303@gmail.com)

Contact No: +91 9579089838

## OBJECTIVE

---

A software graduate eager to leverage academic foundation in programming languages and development methodologies to contribute effectively as a software developer in a dynamic IT environment, while continuously enhancing skills and knowledge.

## SKILLS

---

- **Programming Languages:** C, C++,Java, html, css, javascript
- **FrameWork:** Hibernate, springboot
- **Databases:** Mysql,Firebase

## EDUCATION

---

- **Bachelor of Engineering (B.E)** Oct 2020 - Jun 2024  
- PDEA'S College of Engineering Pune – 8.51 CGPA
- **HSC(12<sup>th</sup>)** May 2019 - Jul 2020  
- Mudhoji High School & Jr.College phaltan – 73.54 %
- **SSC (10<sup>th</sup>)** Jul 2017 - Mar 2018  
- Mudhoji High School & Jr.College phaltan – 91.00 %

## INTERNSHIP

---

### Oasis Infobyte

Web Development Intern

- Gained hands-on experience in web development.
- Developed a Landing Page, portfolio Page, Tempreature Converter using HTML,CSS, JS.

### Cordon Technologies

Full Stack Developer Intern

- Collaborated on AMS and SGS projects for web applications as well as Android application.
- Acquired comprehensive skills in web development technologies including HTML, CSS, and JavaScript.
- Gained intermediate expertise in MERN stack.
- Contributed to HRMS project as backend developer and acquired practical knowledge in Spring Boot technology

## PROJECTS

---

### Milk Quality Detection using ML

Technical skills : python,Html

Developed and implemented a machine learning model to assess and predict milk quality.Utilized data processing technique to Handle and analyze large dataset and employed algorithms such as decision tree, svm to achieve high accuracy.

### ATM Management System

Technical Skills :Core Java, Hibernate With JPA, Maven and MySql.

The project involves all operations related ATM System and all operations are managed through database.

## **Cricket Management System**

Technical Skills :C

The purpose of Cricket management system is to manage the data of the players in the team. It helps to insert the new data ,to store the data , to update the record in the given system ,to delete the unused record and search the required data.

## **Certificates**

---

- Enrolled for She Arise 2.0 CSR Program By Capgemini and Centum Foundation.
- SQL and Relational Database by IBM.
- Diploma In Java By FirstBit Solutions.
