PROFILE SUMMARY

Entry-Level Software Developer with strong skills in coding, designing and developing Applications. Having Strong Knowledge in Object-Oriented Programming (OOP). Proficient in Java, Spring Framework, and web technologies. Good Knowledge in React for Better UI Experience. Hands on Knowledge in developing scalable web applications using Java backend development, frontend technologies, and databases. Seeking an opportunity to apply technical skills and gain professional growth as a software developer.

EDUCATIONAL DETAILS

- B.Tech**
[R.V.R & J.C College of Engineering](#) 2019 - 2023
Electronics and Communication Engineer CGPA : 7.23
- Class XII** 2017 - 2019
[Sri Chaitanya Junior College](#) CGPA : 9.63
- Class X** 2016 - 2017
[Bhashyam Public School](#) CGPA : 9.3

PROFESSIONAL TRAINING

- Java Full Stack Certification** August 2024 - Apr 2025
[Vcube Software Solutions](#)

Through this training I've gained Hands on Knowledge on Java Programming to develop Backend-applications by mastering at Frameworks, Databases and OOPs concepts. Ability to build UI for web based Applications using HTML, CSS,JAVASCRIPT along with React. Implemented Real time Projects to establish connection between Client and Server based applications

SKILLS & TOOLS

- Core Java** : OOPs, Access Modifiers, Exception Handling, Interfaces, String Handling, Collections frameworks, Multithreading
- Advanced Java** : Servlets, JSP
- Web Technologies** : HTML, CSS, JavaScript
- Libraries**: React
- Databases** : SQL, Joins, Stored Procedures
- Frameworks** : Spring mvc, Spring Boot
- SDLC** : Agile Methodologies
- Version Control** : Git
- API's** : Rest based API's
- Tools**: Eclipse, Node, Maven, VS Code, Postman,

PROJECTS

FARM TO MARKET SUPPLY CHAIN MANAGEMENT SYSTEM BY USING SPRING BOOT

Description : Farm to Market is a web application that connects farmers, equipment owners, and traders by enabling online listing and booking of farming products and equipment. It allows farmers to sell goods, rent equipment, and traders to place bulk orders based on location.

Responsibilities:

- Implemented secure login& registration with session management and role-based dashboard access for Farmers, Traders, and Equipment Owners.
- Enabled farmers to manage products and book equipment, and traders to search by location and place bulk orders.
- Created features to add, update, and remove equipment, along with showing real-time availability.
- Added filters to help users find products and equipment by city and type.
- Designed the backend and database to handle users, products, rentals, and orders using REST APIs.

Skills :Core Java, Spring Boot, Spring Security, RESTful APIs, MySQL

Tools : Eclipse, Mysql Workbench, Maven, Postman

CREATE A CRUD BASED EMPLOYEE MANAGEMENT PORTAL

Description :The Employee Management Portal is a Spring Boot application for managing employee records. It supports CRUD operations to add, view, update, and delete employee details. The portal ensures efficient handling of employee data with a simple interface. It helps organizations streamline and maintain their workforce information effectively.

Responsibilities :

- Set up a Spring Boot project and add the required dependencies.
- Design the Database along with required columns make and make it follow Some basic Rules
- Design the Employee entity with relevant fields and implement the JPA repository for database operations
- Write the Business Logic in Service layer which can check some basic validations.
- Connect Database with Repository Layer for Relation for Spring boot Application.
- Create REST API endpoints for CRUD operations so data manipulation can be performed via HTTP requests.
- By Using Postman Tool we can Validate the Application By using End Points

Skills : Core Java, SQL,JDBC Connectivity, Spring boot, Rest API'S,MVC Architecture

Tools : Eclipse, MYSQL Workbench ,POSTMAN

CERTIFICATIONS

- Java Full Stack Certification at Vcube Software Solutions, Hyderabad.
- NPTEL Online Certification Programming in Java

ORGANIZATIONAL SKILLS

- Logical Ability and Problem Solving Skills
- Good Communication and Analytical Thinking

INTRESTS

- Exploring and Learning New Technologies
- Badminton

DECLARATION

I hereby declare that the contents of my resume are accurate to the best of my knowledge and verify their authenticity
