

Ritu Kumari

BackEnd Developer • 3+ Years of Experience in BackEnd Development

Gurugram, HR - 122102 • [8287382482](tel:8287382482) • tech.ritu82@gmail.com

LinkedIn: <https://www.linkedin.com/in/ritu-kumari-38280620b/>

Professional Summary

Software Engineer with 3+ years of experience in backend development using Java, Spring Boot, and Microservices architecture. Proven ability to deliver scalable and maintainable solutions across government sector projects. Passionate about clean code, system design, and continuous learning.

Key Skills & Tools

Languages: Core Java, Java 8

Frameworks: Spring Boot, Spring MVC, Hibernate, JPA, Microservices, Angular

Tools: Git, GitHub, Postman, Jira

Databases: MySQL

Cloud: AWS(Certified)

Work Experience

Maven Wave Partners India Pvt. Ltd., Gurgaon - Software Engineer

June, 2022 - March, 2025

- Worked with cross-functional teams to design and develop scalable backend solutions using Java 8 and Spring Boot.
- Translated business requirements into high-performing backend components and RESTful APIs.
- Integrated multiple third-party APIs to enhance system functionality and streamline external data flows.
- Ensured end-to-end delivery of features with a focus on performance, scalability, and client satisfaction.
- Actively participated in Agile ceremonies including sprint planning, reviews, and retrospectives.
- Diagnosed and resolved production issues, ensuring high availability and minimal downtime.

Tech Stack: Java 8, Spring Boot, MySQL, Git

iTech Mission Private Limited, New Delhi - Java Developer

Nov. 2021 - May, 2022

- Designed, built and maintained java based applications & websites.
- Contributing to software and architecture development activities.
- Troubleshooted and resolved the reported issues and resolved queries in a timely manner.
- Prepared detailed design documentation.

Tech Stack: Java 8, Spring Boot, MySQL, Git

Projects

RHRConnect – Leadership Assessment Platform | Java 8, Spring Boot, MySQL, Git

RHR International is a global leadership consulting firm focused on unlocking potential in senior leaders through evidence-based assessment and development programs.

Key Responsibilities & Achievements:

- Enhanced backend architecture using Java 8 & Spring Boot for better performance, scalability, and maintainability.
- Refactored legacy backend modules and implemented modular RESTful APIs aligned with microservices architecture.
- Integrated secure and reliable third-party APIs to support client-specific features and data workflows.
- Collaborated with QA and DevOps teams to support automated testing and smooth CI/CD deployments.
- Delivered backend features on schedule while maintaining high code quality and meeting evolving client expectations.

Poshan – Integrated Nutrition Support Program | Java 8, Spring Boot, MySQL, Postman, Git

Poshan Abhiyaan is India's flagship initiative to improve nutritional outcomes for children, adolescents, pregnant women, and lactating mothers through the use of technology and targeted service delivery.

Key Responsibilities & Achievements:

- Developed backend components and RESTful APIs to manage user data and nutritional services.
- Integrated modules for real-time data tracking and reporting using Spring Boot and MySQL.
- Participated in code reviews and ensured adherence to best practices for performance and security.
- Contributed to the delivery of scalable backend features aligned with program objectives.

Education

MSC – Government College for Girls, Gurugram University

2022 - 2024

BCA – Government College for Girls, MDU Rohtak

2016 - 2019

Certifications

AWS Cloud Practitioner

Awards

- Rookie of the month Award at Eviden (10/2022)
- Eagle Team Squad at Eviden (02/2024)
