Objective:

Dedicated and results-driven .NET and Frontend Developer with a strong foundation in developing full-stack web applications using .NET 8, MVC, C#, JavaScript, HTML, and CSS. Skilled in creating responsive user interfaces, managing secure backend operations with PostgreSQL, and building robust CRUD and authentication systems. Seeking a challenging role to leverage both backend and frontend development skills to deliver efficient, scalable, and user-friendly software solutions.

Technical Skills:

Languages & Technologies:	C#, HTML & CSS
Frameworks & Platforms:	.NET 8, ASP.NET MVC
Database:	SQL, PostgreSQL Server
UI/UX Tools:	Figma, Bootstrap
Operating Systems:	Windows, Linux, Mac OS

Soft Skills:

- **Team Collaboration:** Excel in interdisciplinary team environments, leveraging diverse perspectives to achieve common goals.
- **Quick Adaptability:** Rapidly embrace new technologies and methodologies, ensuring seamless integration into dynamic work environments.

Education:

Bachelors in Electronics and Communication	BVC Engineering College	7.73 CGPA	May 2024
Intermediate (MPC)	Aditya Junior College	8.0 CGPA	Apr 2020
SSC	GRM Sir C.V Raman School	10.0 CGPA	Apr 2018

Projects:

Office Communication Hub:

- Developed a secure messaging web application using ASP.NET MVC
- Implemented login and registration with Admin and Employee roles using ASP.NET Identity
- Integrated PostgreSQL for storing messages and user data
- Designed the frontend using HTML, CSS, JavaScript, Bootstrap, and Figma
- Added features to send, view, and delete messages with proper access control.

Student Details Management System:

- Built a web application using ASP.NET MVC to manage student records
- Implemented CRUD operations (Create, Read, Update, Delete) for student data
- Used PostgreSQL as the backend database for data storage
- Designed user-friendly UI with HTML, CSS, JavaScript, and Bootstrap
- Implemented role-based access using ASP.NET Identity (Admin can manage, Student can view)

Work Experience:

.Net Developer Intern

Metro Lab Services

Nov 2024 – Apr 2025

Responsibilities

- Developed full-stack web applications using .NET 8, ASP.NET MVC, and Web API.
- Designed and implemented RESTful APIs to support frontend functionality and mobile readiness.
- Integrated PostgreSQL as the backend database and implemented complex SQL queries.
- Built secure login and registration systems using ASP.NET Identity with role-based authorization.
- Designed responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap, guided by Figma designs.
- Used Git and GitHub for version control and collaborative development.

Training & Certifications:

- .Net Developer (Metro Labs Services)

Apr 2025
