New Delhi, India

Enthusiastic and dedicated Software Developer with a experience of 1 year in Java, MySql, Hibernate, Spring boot and front-end technologies. Eager to contribute to a mission driven organization and leverage my skills to support the company's goals. Passionate about creating efficient and user-friendly software solution. Thrives in collaborative environments and committed to continuous learning and Implements my skills on the project

## Professional Experience

### Beganto Software Solutions

Noida | July 2024- August 2025

**Role: Java full stack developer**

#### Framework and version:

- Developed a web application frontend using **Angular** (specific version: [14.1.3]) to create a responsive, dynamic, and client-driven user interface..
- Designed and implemented backend services with **Spring Boot** (version: [3.1.2]) and **Java** (version: [18]), ensuring scalable and efficient business logic processing.
- Integrated **Elasticsearch** to enhance application search capabilities, improving data retrieval speed, accuracy, and relevance.
- Utilized **MySQL** as the primary storage database for structured and optimized data management.

## Project:

**Project Name:** True Blue Partner

**Project overview:** - We help entrepreneurs with business growth, investments, financing, mergers & acquisitions (M&As), and exits. Supported Mergers & Acquisitions (M&A), Capital Raising, Buyouts, and Strategic Investments for IT-focused businesses (Enterprise Software, SaaS, Tech-Enabled Services, IT Services).

**Technologies:** Web application using Angular for the frontend, delivering a responsive and dynamic user interface. Implemented a RESTful API with Spring Boot to handle business logic and data management. Integrated Elasticsearch to enhance search capabilities, improving data retrieval speed and relevance. Utilized MySQL for efficient data storage, organization, and retrieval.

## Personal Project:

**Project Name:** BOOKMY SHOW

- Implemented user authentication and Login Process
- Demonstrated expertise in software architecture and database design
- Ensured optimal performance and scalability in database connectivity
- Showcases strong Java programming skills and hands-on experience in backend development

## Technical Skills

- **Languages:** Core Java , JavaScript, TypeScript, HTML5, CSS
- **Frameworks:** Spring Boot, Spring MVC, Spring Framework, Hibernate ORM, JDBC, Angular, ReactJS
- **Backend:** Java (Spring Boot, Hibernate, Servlets, JDBC)
- **Architectures and Patterns:** MVC Architecture, RESTful Web Services
- **Database:** MySQL
- **Version Control:** Git and GitHub
- **Tools:** VS Code, Eclipse
- **Build Tools:** Maven, Gradle

## Education

- **Bachelor of Technology (B. Tech)**  
Electronics Engineering  
Rajkiya Engineering College, Kannauj  
2019 – 2023
- **Intermediate**  
MPSKI COLLEGE  
2016 – 2017
- **High School**  
Mount Carmel School  
Kanpur UP  
2014 – 2015

## Training & Certification

- **Java full stack developer from JSPIDER**
- **Training completion certificate**

## Languages

**Hindi:** Native Language

**English:** Working Proficiency

## Areas Of Interest

- Web Development
- Artificial Intelligence
- Problem Solving
