PROFIIIE SUMMARY:

I am a passionate MERN/Web Developer focused on creating responsive and user-friendly web applications. I enjoy working with **React**, **HTML**, **CSS**, and **JavaScript**, and I'm familiar with tools like **Postman**, **REST API's**, **Redux** and **Node.js** . I am always eager to explore new technologies and innovative, high-quality solutions that make a real impact.

TECHNICAL SKILLS:

- **Frontend Technologies:** **HTML5, CSS, Tailwind CSS, JavaScript,React,Responsive Web Design, Angular**
- **Backend Technologies:** **NodeJs, Express,MongoDB,SQL,PHP**
- **Languages:** **Python, Basic knowledge of Java**
- **Framework:** **Bootstrap**
- Tools:** **Git, GitHub, Vs Code, Postman, Rest API, Netlify, Redux**

EDUCATION:

- Bachelor of Science in Information Technology 2022-2025
University of Mumbai CGPA:7.90
- Higher School Certificate 2022
Konkon Board 70.83%
- Secondary School Certificate 2020
Konkon Board 92.20%

PROJECTS:

ZOONEST:

- A comprehensive full-stack web application built with **React.js, Node.js, and MySQL**, designed to automate and enhance zoo operations.
- Developed a robust **role-based system** (Admin/User) enabling secure access and efficient management of animals, events, ticket pricing, and bookings.
- Designed a clean and dynamic UI for **displaying animal details, upcoming events, and gallery content**, ensuring smooth user navigation.
- Built scalable APIs to support **CRUD operations**, improving operational efficiency and reducing manual workload.

AURAEVENT:

- Built a component-driven architecture with reusable UI modules for better scalability and faster development.
- Designed optimized layouts with **Tailwind CSS** to deliver a modern, consistent, and mobile-friendly interface.
- Improved user experience through **smooth routing, transitions, and dynamic data rendering**.
- Integrated **REST API endpoints** for real-time event fetching and state updates.

Experience :

Web Developer Intern(April 2024-Jun 2024):

- During my internship at **Vyosim Techlab**, I worked as a Web Development Intern, where I gained hands-on experience in building responsive and user-friendly web applications. I worked closely with a senior developer.

CERTIFICATIONS:

- **Introduction to Generative AI by Google Cloud** — Beginner-level course covering how Generative AI works, different model types, practical use cases, and essential tools.
- **Hands On React JS From Beginner to Expert** — Hands-on course covering React JS from beginner to expert level through Udemy.
- **Foundations of Web Development** — Foundational course in Web Development covering CSS, Bootstrap, JS, and React through Udemy.
