Project

BFSI-Tradings and Stock Market
Tradings and Stock Markets unit at TCS focuses on delivering IT solutions for capital markets, including equity, derivatives, commodities, and fixed income trading. This domain supports global financial institutions by developing and maintaining trading platforms, market data integration, risk management systems, and post-trade processing. The focus is on high performance, compliance, and innovation in stock exchanges, investment banks, and brokerage environments.

Awards

Star of the Month
Received 'Star of the Month' award at TCS for outstanding performance, commitment to quality, and delivering impactful solutions within project timelines.
