## SUMMARY

---

Highly motivated and eager fresher seeking entry-level opportunities to launch a successful career. Equipped with a solid foundation in Java, MySQL, JavaScript, React.js and a passion for continuous learning. Strong communication, analytical, and problem-solving skills. Adaptable team player with a positive attitude and a driver for excellence. Ready to contribute and make a positive impact while acquiring practical experience in a dynamic work environment.

## TECHNICAL SKILLS

---

**Programming Languages:** Java (OOPS, DataStructures and Algorithms, Exceptions, JDBC, JSP Servlet, REST API, JSON), JavaScript

**Front-end:** HTML5, CSS3, Bootstrap, JavaScript, React.js

**Database:** MYSQL, SQL

**Libraries & Tools:** Eclipse, IntelliJ, VS Code, Editplus, GitHub, Kaggle, LinkedIn

## PROJECTS

---

### Library Management System

*Deep Learning Project*

August 2025 – Present  
*Java, MYSQL, OpenCV*

- Automate manual tasks and improve the efficiency of library operations.
- Provide a user-friendly interface for patrons to search, borrow, and return books.
- Accurately track book inventory, borrowing history, and fine payments.

### Harvest Hub

*Natural Language Processing*

Aug 2025 – Dec 2025  
*Java, REST API, JDBC, JSP Servlet*

- Streamline the agricultural supply chain, reducing costs and increasing profitability for farmers and suppliers.
- Provide farmers with access to a wider market, enabling them to sell their produce to a larger customer base.
- Ensure that produce is of high quality, by enabling farmers to track and manage their produce effectively.

## EXPERIENCE

---

### Full Stack Java Intern

*CodingBrains Technology*

Sept 2025 – January 2026  
*Bangalore, IN*

- Develop high-quality, scalable, and maintainable code using Java and related technologies
- Collaborate with cross-functional teams to design, develop, and deploy software applications
- Work on both front-end and back-end development using Java frameworks and libraries
- Participate in code reviews, identify and fix bugs, and ensure adherence to coding standards

## EDUCATION

---

### Jawaharlal Nehru Technological University

*M.C. A in Computer Applications*

Anantapur, AP  
*June 2024 – April 2026*

### Sri Krishnadevaraya University

*B.S.C in Computer Science*

Anantapur, AP  
*June 2019 – Sept 2022*

## CERTIFICATIONS

---

- Certified Java Full Stack - CodingBrains
- Python Developer Certificate
