Nationality: Indian | Marital Status: single | Religion: Hindu | Birthday: 23/05/2002

---

## Objective

---

Dedicated tech professional looking to apply hands-on technical expertise and innovative thinking to create efficient, scalable solutions.

## Work Experience

---

**CoreXtech IT Services Pvt.Ltd** 09/2025 - Nowadays  
internship

Deployed and managed EC2 instances using AWS Console and CLI for test environments.  
Configured S3 buckets with versioning and lifecycle policies for cost-efficient storage.  
Built basic VPC architecture with public/private subnets, NAT, and routing configurations.Used Git for version control and collaborated on repositories through GitHub.

**ZTEK control system PVT.LTD** 12/2024 - Nowadays  
Project Engineer

Working with Electronic components and devices, Quality checking & Quality, assurance, Production Management,Purchase & Development, Testing & calibration of Electronics Device, Assembly,

**Unified mentor** 05/2025 - 08/2025  
internship

I have done hands-on training and development work on both the front-end and back-end of web applications, utilizing technologies like HTML, CSS, JavaScript, frameworks . Knowledge of back-end languages and frameworks (Node.js, Python).  
Ability to work with version control systems (Github). Problem-solving and debugging skills

**vinrox technologies LLP** 01/2024 - 04/2025  
internship

I have done PCB Manufacturing using Surface mount technology,  
PCB testing  
Electronics Devices assembly.  
PCB Quality Checking.  
PCB error checking using AOI.

# Project

**internship project**  
AWS Web Hosting Architecture

10/2025 - 10/2025

Created a scalable and secure web hosting setup on AWS.  
Used EC2, S3 (static assets), IAM, VPC, and Security Groups.

**internship project**  
GYM MANAGEMENT SYSTEM

08/2025 - 08/2025

.objective: to improve the efficiency of gym management, enhance customer experience, and allow gym staff to focus on fitness services rather than administrative work  
Features:  
-member registration & management  
-trainer management  
-attendance tracking  
-reporting & analytics

**internship project**  
TIC TAC TOE GAME

05/2025 - 08/2025

Language Used: Java Script Language is used in this mini project and HTML/CSS for front end.

**internship project**  
PERSONAL PORTFOLIO WEBSITE

05/2025 - 08/2025

-html: provides the structure and content of the website.  
-css: handles the visual styling and layout of the website.  
- javascript: enables interactive elements, dynamic content, and user experience enhancements.  
-version control: utilize git and github for managing code changes and collaborating

# Education

**B.E in Electronics & Communications**  
GEC Bharuch

07/2020 - 05/2024

8.16 CGPA

**HSC GSEB**  
Vidhyut Board Vidhyalaya

06/2019 - 03/2020

60%

**SSC GSEB**  
Vidhyut Board Vidhyalaya

06/2017 - 03/2018

80%

# Skill

**soft skills**

Quick witted | Collaborator | Adaptable

**Technical skills:**

**Cloud Platforms: Amazon Web Services (AWS):** EC2, S3, IAM,VPC,CloudFormation (Basics), load balancer,auto scaling.

**Operating Systems: Linux administration:** system monitoring, user/admin management, package management.

**Programming Languages:**

Html,CSS, javascript.

**Front-End Technologies:**frameworks like HTML, CSS, and JavaScript.

**Version Control:** Familiarity with version control systems (e.g., Github) for managing code changes.

**Problem-solving and debugging skills.**

# Interest

Intrested In Electronics, Designing and web development , cloud technologies.
