Bachelor of Engineering in
Computer Science

Sethu Institute of Technology

CGPA – 7.3

2016-2020

CAREER OBJECTIVE

Looking forward to an opportunity to work on challenging projects and utilize them for both personal and organizational growth to the best of my ability.

EXPERIENCE

Software Developer (4+ Years), Chella Software

- Collaborated with cross-functional teams to design and develop user-friendly web applications.
- Developed and maintained RESTful APIs for data exchange between front-end and back-end systems.
- Implemented Apache Kafka as a core component for data streaming, enabling real-time data processing and analysis.
- Collaborated with clients to gather project requirements.
- Optimized database queries and improved application performance, resulting in faster response times.
- Provided immediate temporary and permanent solutions to critical production issues in effective way.
- Deployed applications on Apache Server and managed server configurations.

PROJECTS

Sentinel

Apr2023 – Current

Sentinel is monitoring system which will monitor the commodity exchange market and generates alerts if any Order/Trade shows suspicious movement in market.

RBI Retail Direct

Aug2021 – Mar2023

Retail Direct is web based platform for retailers to buy government bonds directly at RBI. Investors can buy their bonds through primary auctions.
