SUMMARY

Motivated and enthusiastic MERN developer with a strong foundation in both front-end and back-end technologies seeking an entry-level position to apply my skills and grow as a professional in a dynamic and challenging environment.

TECHNICAL SKILLS

Programming Languages: Java, Adv.Java, JavaScript, TypeScript

Web Development: HTML, CSS, JS, Node JS, React JS, Next JS

Databases: SQL, MySQL, MongoDB

Other Technologies: Restful API, JWT, JSON

PROJECTS

1. TrendyThreads: Modern E-Commerce Web App

- Developed a fully responsive e-commerce web application enabling users to browse, filter and purchase fashion products.
- Implemented server-side rendering (SSR) with Next.js for faster initial load and improved SEO performance.
- Integrated RESTful APIs using Node.js and Express to handle product listings, user authentication, cart management and order processing.
- Added secure user authentication and authorization using JWT and role-based access for admin/product management.
- Integrated payment gateway (razor pay) to handle secure online transactions.

2. Nikita's Curry Corner: Food ordering Web App

- Built a dynamic, responsive food ordering web application for a cloud kitchen using Next.js and Typescript.
- Implemented static generation and server-side rendering to optimize load time and improve SEO.
- Developed core features like menu browsing, item customization, real time cart updates, and order summary pages using reusable React components.
- Used API Routes in Next.js to handle backend logic like order creation, user registration, and food item management.

WORK EXPERIENCE

BharathaTechno Pvt. Ltd, Pune

MERN Developer

Dec 2024 -Jul 2025

- Collaborated with the development team to design and build responsive web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Integrated RESTful APIs using Axios and handled asynchronous operations for smooth data retrieval and submission.
- Built secure authentication features using JWT and protected routes with middleware on both frontend and backend.
- Participated in daily stand-ups, code reviews and followed Git version control best practices for collaborative development.

OrgoCloud Enterprises Pvt. Ltd, Pune

Web Developer Intern

Jun 2023 -Sep 2023

- Assisted in developing and maintaining responsive web applications using React.js and Tailwind CSS
- Collaborated with the design and backend teams to implement UI/UX components and Restful APIs.
- Worked on real-time projects involving dynamic content rendering, routing, and state management.
