Career Objective

B.E. graduate in Electronics and Communication Engineering with 7.4 CGPA with hands-on training in Java Full Stack Development, seeking an entry-level role as a Full Stack Developer to apply my technical skills in Java, Spring Boot, and web technologies while contributing to innovative projects and growing as a software professional.

Technical Skills

- **Web Technologies:** HTML, CSS, JavaScript, React Js.
- **Backend:** Java, JDBC, Hibernate, Spring Boot, REST API.
- **Databases:** MySQL, Oracle SQL, PostgreSQL.
- **Tools:** Eclipse, VS Code.
- **Version Controls** Git, Github.

Education

B.E. in Electronics and Communication Engineering

RajaRajeswari College of Engineering, Bengaluru – 2025

CGPA: 7.4 / 10

Projects

- **Mini voting system machine using embedded C:**
 - Implemented a secure user authentication mechanism to ensure that only eligible voters can cast their votes.
 - Designed a user-friendly interface allowing voters to select their preferred candidate easily.
 - Ensured that the voting data is protected against unauthorized access and tampering.
- **Translation from English to Kannada using BERT model:**
 - Enhanced translation accuracy through fine-tuning and evaluation on bilingual datasets.
 - Support various applications in Natural Language Processing (NLP) such as information extraction, question answering.
- **Machine Learning based Diabetes Prediction using Multi-sensor data:**
 - Built a prediction system that can help in early detection of diabetes risk using real-time sensor data.
 - Achieved an accuracy of around 90
- **Online Bookstore Application:**
 - Built user-friendly frontend pages with HTML, CSS, and JavaScript for a smooth customer experience.
 - Designed the database schema in MySQL for efficient data storage and retrieval.
- **Online Food Order Application:**
 - Developed a RESTful API using Java, Spring Boot, Hibernate, and MySQL/PostgreSQL to manage users, menus, carts, orders, and payments.
 - Ensured best practices in REST design with JSON responses and CRUD operations, including order history and real-time tracking.

Certifications

- Training on Design and development of industrial internet of things system using raspberry pi and enterprise python and C application – Loginware soft tech Pvt Ltd.
- Cloud Application Developer – Rooman Technologies Pvt Ltd.
- Life Skills(Jeevan Kaushal) 2.0 - Rooman Technologies Pvt Ltd.
- Java Full Stack Development – Jspidres.
