PROFESSIONAL SUMMARY

Analytical and results-driven professional with hands-on experience in data analytics, visualization, and Salesforce administration. Skilled in Python, SQL, Tableau, and Power BI, with a strong foundation in data cleaning, dashboard development, and automation. Salesforce Certified Administrator and AI Associate with a passion for leveraging technology to generate actionable business insights and optimize decision-making.

EXPERIENCE

Thinglcloud Solutions Pvt. Ltd. — Trainee Developer Pune, India | Feb 2025 – Present

- Designed and developed interactive Tableau dashboards by integrating Salesforce data for Kotak Advisory, improving operational reporting accuracy.
- Built data pipelines using Tableau Prep Builder, ensuring data consistency and reliability for key business metrics.
- Created calculated fields, filters, and parameters to enhance user interactivity and dashboard usability.
- Optimized dashboard performance, reducing load time and improving user experience.
- Delivered actionable insights to stakeholders, supporting strategic business decisions.

TCS iON — Data Analytics Intern Remote | Jan 2025 – Apr 2025

- Developed an OCR-based handwritten text recognition system using Python, OpenCV, and Tesseract OCR.
- Automated text extraction from images with over 90% accuracy, reducing manual entry time by 50%.
- Gained hands-on experience with image preprocessing, pattern recognition, and AI-driven automation.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering

Tatyasaheb Kore Institute of Engineering and Technology (TKIET) | 2022 – 2025

CGPA: 8.61 / 10.00

PROJECTS

Alumni Association Platform | HTML, CSS, JavaScript, PHP

- Developed a full-stack web application for alumni networking and event management.
- Built searchable alumni directories and an admin dashboard for managing profiles.
- Enabled alumni to post job and training opportunities, enhancing student–alumni collaboration.

Stock Market Data Visualization | Python, Pandas, Plotly, Dash

- Built interactive dashboards to visualize and analyze real-time stock market data.
- Processed large datasets to identify market trends and performance metrics.
- Optimized data pipelines for faster analytics and improved user experience.
