Mern Stack Developer Intern Code World Infotech Pvt Ltd	Jan 2025 - April 2025 <i>Solapur, MH</i>
<ul style="list-style-type: none">Developed and contributed to a MERN-based web application under the guidance of senior developers.Collaborated with designers and senior developers to translate business requirements into functional web features.Conducted debugging and performance improvements using browser devtools, Postman, and console-based logs.Demonstrated strong dedication, problem-solving ability, and technical growth throughout the internship period.Successfully delivered the project within the given timeframe, demonstrating strong problem-solving skills and technical proficiency.	

PROJECTS

KiranaKing – Grocery E-commerce Platform [\(Try it here\)](#)

- Developed and deployed a full-stack grocery e-commerce web app for seamless shopping experience.
- Implemented product categories (Vegetables, Fruits, Dairy), search/filter, and cart management.
- Designed a responsive front-end using React and Tailwind CSS.
- Built RESTful APIs using Express.js and MongoDB for scalable backend operations.

Vyapar Setu – Multi-Vendor Business Management Platform [\(Try it here\)](#)

- Architected a scalable **Multi-Vendor Architecture** allowing multiple vendors to manage their products and sales on a single platform.
- Engineered a high-performance, **Customer-Facing Storefront** utilizing Next.js for optimized rendering, improved SEO, and a responsive design styled with Tailwind CSS.
- Integrated the **Gemini API** for automating the generation of SEO-friendly product descriptions from the product name and photo.
- Implemented an **admin panel** to oversee vendors, products, commissions, and platform metrics.
- Utilized Next.js for SSR and performance optimization, with Tailwind CSS for modern, responsive UI.
