

Utpreksha Ranjan singh

Immediate Joiner

Java Developer (3 Years of Experience)

+91 7488374064 ranjanutpreksha@gmail.com Utpreksha Ranjan singh

IT professional with 3 years of experience, possessing knowledge and hands on experience in backend development. Going forward with learning and looking for a better opportunity to implement my skills and enhance them.

Work Experience

Accenture

- 1. Application Development Associate | Jan 2022 - Feb 2024
- 2. Software/App/Cloud Tech support Analyst | Mar 2024 - Apr 2025

Education

Btech - Information Technology - 8.82 CGPA

GIET University, Gunupur (2017 - 2021)

Skills

Language	• Java • JavaScript • HTML • CSS • SQL
Framework	• SpringBoot
ORM Tool	• Hibernate
Tools	• MySQL • Spring Tool Suit • GitLab

Roles and Responsibilities

- Developed, and maintained scalable Java applications (developed screens containing CRUD operation) using Spring Boot, Hibernate, and RESTful APIs.
- Followed coding standards and best practices as per company's guidelines.
- Wrote unit tests for the screens which I used to make.
- Communication and collaboration with team through daily stand-ups, and code reviews to ensure quality.
- Worked with MySQL database and wrote stored procedure.
- Along with the backend, developed frontend as well using javascript, jQuery and AJAX.
- Managed code repositories in GitLab, following best practices for branching, merging, and pull requests.

Projects

CMS Module- Government Enterprise System:

Tech Stack: Java, Spring Boot, Hibernate, MySQL, REST APIs, HTML, CSS, JavaScript, JSP/Thymeleaf

- Contributed to the development of a Content Management System (CMS) module for both internal admin panel and public-facing website.
- Built and maintained secure RESTful APIs to handle content operations (CRUD), integrating with a MySQL database via Hibernate ORM.
- Implemented role-based access control and secured admin functions using Spring Security.
- Developed frontend components using JSP/Thymeleaf, HTML, CSS, and JavaScript, ensuring a responsive and intuitive UI for both admin users and public visitors.
- Integrated backend APIs with frontend views for seamless content display and updates.

Smart Contacts Management(Part of CRM project)

- The project was a CRM system for managing clients and interactions, and I was responsible for developing the contact management module.
- Designed and developed a Smart Contact Management Module using Java, Spring Boot, and MySQL, enabling users to perform secure CRUD operations on contacts with image upload and tagging features.
- Implemented authentication and authorization using Spring Security and BCrypt, ensuring role-based access control for contact data and user-specific dashboards.
- Integrated email functionality using JavaMailSender, allowing users to send communication directly to saved contacts.
