---

## SUMMARY

Full Stack Java Developer with **1.1 years of experience** in building efficient and scalable software solutions. Proficient in **Java, Spring Boot, HTML, CSS, Bootstrap, and jQuery** for developing robust backend systems and responsive front-end interfaces. Skilled in **RESTful API development, MongoDB, and MySQL** database management. Strong in debugging, code optimization, and ensuring smooth, high-performance application functionality.

---

## KEY ACHIEVEMENTS

- **Enhanced Application Efficiency:** Improved overall application performance by **20%** through Spring Boot optimization techniques.

---

## EXPERIENCE

### Java Full Stack Developer

*Lenterate Technologies Private Limited, Chennai (Velachery)*

**Oct 2024 – Oct 2025**

### Client Interaction & Feature Implementation

- Interacted with clients to gather requirements and implement updates to existing web applications.

### Project: CRM Application (Fuse)

- Designed and maintained a comprehensive CRM system to manage employee activities, client data, and business operations.
- Developed **RESTful APIs** using **Java Spring Boot** for secure and efficient backend processing.
- Built **responsive UI components** with **HTML, CSS, Bootstrap, and jQuery** to enhance user experience.
- Implemented modules for **Employee Activity Management, Business Performance Tracking, and Meeting & Call Management**.
- Created a **Customizable Dashboard** offering real-time insights into team performance and client activities.
- Integrated and optimized **MongoDB** for scalable and efficient data handling.

- Collaborated with the development team to improve performance and ensure seamless deployment.

**Technologies:** Java, Spring Boot, MongoDB, jQuery, HTML, CSS, Bootstrap

---

### **Project: E-Commerce Web Application**

- Developed interactive **frontend pages** for an e-commerce platform, enabling users to browse and purchase products online.
- Designed **home, product listing, and product detail** pages displaying images, pricing, and specifications.
- Implemented **user authentication, shopping cart, and checkout workflows** for secure transactions.
- Built **profile management** and **order tracking** modules to enhance user engagement.
- Integrated **search, filter, and product review/rating** functionalities.
- Ensured all pages were **fully responsive** and seamlessly connected to backend APIs for dynamic content rendering.

**Technologies:** HTML, CSS, Bootstrap, jQuery

---

## **EDUCATION**

**B.E. – Electronics and Communication Engineering**

*Ponjesly College of Engineering, Nagercoil*

2020 – 2024

---

## **TECHNICAL SKILLS**

- **Programming & Frameworks:** Java, Spring Boot, JavaScript, React
  - **Frontend:** HTML, CSS, Bootstrap, jQuery
  - **Databases:** MySQL, MongoDB
  - **Tools:** IntelliJ IDEA, Visual Studio Code, GitHub
- 

## **SOFT SKILLS**

Teamwork | Leadership | Time Management
