## PROFILE SUMMARY

Motivated and detail-oriented **PHP Developer** with **1.5 years** of hands-on experience in developing, maintaining, and optimizing web applications. Proficient in **Core PHP**, **MySQL**, and front-end technologies including **HTML**, **CSS**, **JavaScript**, and **Bootstrap**. Skilled in writing clean, secure, and efficient code, integrating **APIs**, and managing databases. Experienced in debugging, improving application performance, and collaborating with teams to deliver user-friendly solutions.

## PROFESSIONAL EXPERIENCE

**Software Engineer|Angel Shark IT Solutions PVT LTD.**  
**May 2024 – Present | Satara, India**

- Developed and maintained dynamic web applications using **Core PHP**, **MySQL**, and **JavaScript**, ensuring smooth functionality and optimized performance.
- Built responsive front-end interfaces with **HTML**, **CSS**, **JavaScript**, and **Bootstrap** to enhance the user experience across devices.
- Designed and optimized **MySQL** database structures, writing efficient **SQL** queries for data retrieval, processing, and reporting.
- Created and implemented **CRUD** operations, form validations, and secure authentication modules.
- Followed best practices for security, code optimization, and documentation.

**Key Achievements:**

- Improved application performance by **30%** by optimizing **PHP** code, **SQL** queries, and database structure.
- Successfully delivered multiple web modules that enhanced user experience and reduced customer support queries by **15%**.

## PROJECTS

**Tourist Cab Website**

**Technologies:** PHP,MySQL

- Designed and developed responsive cab booking platform.
- Implemented a booking interface with From-To search and multiple trip types (One Way, Round Trip, Local, Airport).
- Integrated dynamic cab listing with filters (AC/Non-AC, capacity, per-km rate, discounts) Built backend functionality in PHP MySQL for managing vehicles and ride requests.
- Ensured performance optimization through mobile-first design.

## TECHNICAL SKILLS

**Languages:** PHP, HTML, CSS, JavaScript

**Database:** Mysql, SQL

**Developer Tools:** Vs Code, STS, Git, GitHub

**Frameworks:** Laravel, Bootstrap

## Achievement

- Enhanced **UI** responsiveness using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**, reducing layout issues on mobile devices by **60%**.

## Education

**FullStack Developer, Firstbit Solution ,2023 - 80%,**  
**B.Sc (Information Technology), F.G.Naik Mumbai 2021 – 71.25%**
