Professional Summary

Full-Stack Developer skilled in JavaScript, and modern web frameworks .Built production-ready full-stack applications with responsive UIs, REST APIs.
Collaborative development and passionate about solving real-world problems through scalable software.

Education

AVN Institute of Engineering and Technology College, Hyderabad 2021–2025
Bachelor of Engineering and Technology in CSE (Data science)

Technical Skills

- **Languages:** Java, JavaScript, SQL, HTML5, CSS
- **Frontend:** Bootstrap
- **Databases:** MySQL
- **Tools:** GitHub, Vercel
- **Deployment:** Vercel
- **Other:** Machine learning, Devops

Projects

Forest Fire Prediction

- Forest fire prediction involves analyzing various factors to forecast the likelihood and potential spread of wildfires.
- Developed and implemented forest fire prediction models using weather, vegetation, and topography data.
- Conducted risk assessments and identified high-risk areas and periods.
- Collaborated with agencies and land managers to inform prevention and mitigation strategies.
- Analyzed data to optimize prescribed burning schedules and reduce.

Online Recruitment Fraud Detection Using Machine Algorithms

- Online recruitment fraud detection involves identifying and preventing fraudulent job postings, fake profiles, and malicious activities on job boards and social media platforms. Deep learning approaches can be effective in detecting these threats.
- Developed and implemented deep learning models for online recruitment fraud detection, achieving [X]% accuracy in identifying fake job postings and profiles.
- Utilized NLP and deep learning techniques to analyze job postings and detect suspicious language patterns, reducing false positives by [X]%.

Certificates

- Icat Infosys Aptitude test
- AWS Forage Solutions Architecture Job Simulation

Soft Skills

- Strong analytical and problem-solving abilities
- Effective communication and team collaboration
