Mobile: 9390927554 | Email: karimmynu@gmail.com

PROFESSIONAL SUMMARY

Java Developer with hands-on internship experience in developing Spring Boot applications, REST APIs, and database-driven backend systems. Completed Java Full Stack training at Naresh IT, gaining strong practical knowledge of backend development, SQL, and scalable application design. Passionate about building efficient Java applications and ready to contribute to real-time development teams.

TECHNICAL SKILLS

Programming: Core Java, J2EE, OOPs, Collections

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate

APIs & Tools: REST APIs, Postman, Swagger/OpenAPI

Databases: MySQL, Oracle (SQL & PL/SQL)

Version Control: Git

Build Tools: Maven

Testing: JUnit, Mockito

Methodologies: Agile (Scrum)

PROFESSIONAL EXPERIENCE

Java Developer Intern

Zesht IT Consulting Services Pvt. Ltd., Hyderabad

Client: CoreUserNetwork.com | June 2025 – Present

- Developed and maintained REST APIs for vendor, customer, and consultant modules using Spring Boot.
- Implemented Role-Based Access Control (RBAC) with Spring Security.
- Improved query performance by 25% through MySQL indexing and optimization.
- Participated in Agile activities such as daily standups, code reviews, and sprint planning.
- Performed API testing using Postman and contributed to reliable backend service development.

PROJECTS

CoreUserNetwork Platform

Tech Stack: Java, Spring Boot, REST APIs, MySQL, Spring Security

- Developed a backend system enabling communication between vendors, customers, and consultants.
- Built reusable REST API modules with validation and exception handling.
- Implemented secure authentication and role-based data access flows.
- Improved lead quality and reduced manual processes through backend automation features.

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

St. Ann's College of Engineering and Technology

2020 – 2024 | CGPA: 7.4/10

ADDITIONAL INFORMATION

- Immediate Joiner
- Strong debugging and problem-solving skills
- Understanding of SDLC, Microservices concepts, and clean code practices
