## SUMMARY

Motivated Software Engineer fresher with a strong academic foundation and a passion for learning. Eager to apply my skills, grow professionally, and contribute to innovative projects in a dynamic tech environment.

## TECHNICAL AND SOFT SKILLS

**Programming Languages:** Core Java, Advanced Java, HTML, CSS, JavaScript

**Frameworks:** Tailwind CSS, Bootstrap, Java Collections, Spring Boot, Microservice architecture

**Database:** MySQL, PostgreSQL

**Version Control & Tools:** Git and GitHub, Postman, Swagger, SDLC, Agile, Docker and Kubernetes

**Soft Skills:** Active Listener, Communication, Leadership, Time Management, Multitasking

## PERSONAL PROJECTS

- **Order Processing Workflow Microservice:** A backend microservice to manage product ordering, payment, and delivery.
  - Built using Spring Boot with RESTful APIs to handle asynchronous communication.
  - Implemented multi-threading for concurrent order processing and status updates.
  - Developed **exception handling** mechanisms for transactional integrity.
  - Integrated Swagger for interactive API documentation and Postman for testing.
  - **Containerized the service using Docker** for deployment.
  - *Technologies Used: Spring Boot, Java, PostgreSQL, REST Template, **Microservices**, Docker, Swagger.*
- **Pet-Pal:** A social media platform for pet lovers, built with Spring Boot, Thymeleaf, and MySQL.
  - Designed a user-friendly interface for posting, liking, and commenting on pet profiles.
  - Implemented session-based login/logout functionality for account security.
  - Added user role management (admin, pet owner, guest) with authorization filters.
  - Employed RESTful APIs and proper exception handling for backend robustness.
  - *Technologies Used: Spring Boot, Thymeleaf, MySQL, Cloudinary, Java, HTML/CSS.*

## EXPERIENCE

- **Ivoyant Pvt. Ltd (Internship)** March 2025 (6 months)
  - Role: *Java Full Stack Development Intern (Offline), Bangalore, India*
  - Created and tested multiple RESTful APIs in a project called **Case Manager**.
  - Implemented **AuthIris**, an internal authentication tool, to secure API endpoints.
  - Identified and resolved bugs, optimized API responses, and ensured data consistency.
  - Documented all endpoints and integrated **Swagger** for clear API specifications.
  - Worked extensively with **Java, Spring Boot, JPA**, and backend technologies.
  - *Technologies Used: Java, Spring Boot, JPA, Swagger, RESTful APIs.*
- **DLithe Consultancy Services Pvt. Ltd.** Feb 2024 (2 months)
  - Role: *Java Full Stack Development Intern, Bangalore, India*
- **Jspiders, Bangalore** June 2024 - Feb 2025
  - Role: *Trained on Java Full Stack and Testing, Bangalore, India*

## EDUCATION & CERTIFICATIONS

- **Academic Qualifications:**
  - G M Institute of Technology — Engineering, CGPA: 8.1 (2020-2024)
  - Vyshanavi Chetana PU College — Pre-University Education, Percentage: 74 % (2018-2020)
  - Bapuji (CBSE) School — 10th Standard, Percentage: 69 % (2018)
