

JAGADESH CHINTHAKINDHI

Software Engineer

+917036021638 | mrjagadesh328@gmail.com | Hyderabad | [LinkedIn](#)

PROFESSIONAL SUMMARY

2+ years of experience as a software engineer specializing in Java backend development. Proficient in building and managing robust **Microservice's** application using **Spring Boot** and database management with **SQL** by following **Agile**. Adept at delivering secure and efficient software solutions by optimizing code quality and adhering to industry best practices, highly adaptable and can take leadership, committed to proactive learning and acquiring new technologies to meet evolving project requirements, expert in communicating ideas and interpersonal skills.

WORK EXPERIENCE

- | | |
|--------------------------------|-----------------------|
| • IntouchCX | Oct 2024 to Feb 2025 |
| • Adunhill Technology | Apr 2023 to Sep 2024 |
| • Wipro Technologies | Dec 2022 to Apr 2023 |
| • Intern at Wipro Technologies | Mar 2022 to July 2022 |

EDUCATION

- Bachelors in ME from St Martin's Engineering college, Hyderabad in 2022.

TECHNICAL SKILLS

Primary Tech stack: Java 8, Linear Data structures and Algorithms (DSA), Spring boot, Microservices, Hibernate, SQL, Maven, RESTful Services, Kafka streams, Postman API, Version Control (Git), grip on Microsoft Azure Cloud.

Secondary skill: Dot.Net, React, JS

Professional skills: Good Communication, Teamwork, Adaptability, Time Management, Work Ethic, Team management

PROJECTS

Adunhill Technology Pvt Ltd | Bangalore, India

Software Engineer

Apr 2023 – Sep 2024

- Built and integrated backend REST API's leveraging Java J2EE technologies with **SQL** as the database for managing financial transactions and sensitive customer data.
- Contributed to code modifications and feature enhancements based on **JIRA** stories aligned with the Sprint plan defined by the Scrum Master.
- Involved in **code reviews** and established best practices to ensure high quality, maintainable code across the development team.
- Adept in applying OOP concepts for maintainable, future-proof codebases.
- Highly motivated to explore innovative projects and enhance technical skills through challenging opportunities.
- Followed Agile Methodology.

Wipro Technologies Pvt Ltd | Chennai, India

Dec 2022 – Apr 2023

Project Engineer

- I was trained on Dot.Net and built a capstone project using **ASP.Net MVC**
- Working knowledge on .Net environment, .Net frameworks, workflow.
- Developed and maintained web applications using ASP.Net MVC, focusing on clean architecture and design patterns.
- Implemented data-driven features using Entity Framework with MS SQL Server.
- Created and managed **RESTful Web APIs** to handle user data and transactions.
- Used **Postman** to test APIs and ensure seamless data exchange between front-end and back-end.

Intern

- Gained hands-on experience in Java development, focusing on object-oriented programming (OOP), data structures, and algorithms.
- Explored **core Java concepts**, including **exception handling**, **collections framework**.
- Gained an understanding of Azure cloud computing principles, including virtual machines, storage accounts, networking, and identity management.

PERSONAL PROJECTS

To Do List Web App

April 2024

- Developed a dynamic task management application allowing users to add, edit, and delete to-dos.
- Implemented CRUD operations using **JavaScript** and **Axios**, ensuring smooth data handling.
- Integrated CrudCrud API for data persistence, enabling users to store and retrieve tasks.
- Hosted and managed project on GitHub, showcasing version control and collaboration skills
