## PROFESSIONAL SUMMARY

Full Stack MERN Developer with experience building scalable web applications. Proficient in React.js, Node.js, Express.js, and MongoDB with track record of improving operational efficiency and user engagement. Strong foundation in API design, authentication systems, and state management.

## TECHNICAL SKILLS

- **Frontend:** React.js, Redux Toolkit, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, Core Java
- **Database:** MongoDB, Mongoose, SQL, Schema Design
- **Tools:** Git, GitHub, VS Code, Postman

## PROFESSIONAL EXPERIENCE

**Full Stack Developer** | Ambuja Foundation, Jaipur **Sep 2023 – Present**

- Developed and deployed scalable HRMS, VMS platforms using the MERN stack, successfully serving 500+ users and managing all core application features and database design.
- Implemented crucial security and efficiency measures, including RBAC (Role-Based Access Control), JWT authentication, and building automated workflows.

**Full Stack Developer** | JSpider's, Bengaluru **Jan 2023 – Aug 2023**

- Gained proficiency in Java, SQL, and MERN stack development, focusing on backend integration and database management, while also serving as an internal peer mentor to assist trainees with MERN stack best practices and debugging.

**Associate Software Engineer** | Publicis Sapient, Bangalore **Feb 2022 – Dec 2022**

- Developed and implemented full-stack features for client applications utilizing React.js and Node.js, including building and maintaining RESTful APIs with proper error handling and security measures.

## KEY PROJECTS

**Visitor Management System** | React.js, Node.js, MongoDB **Oct 2025 – Present**

- Built VMS with QR code generation for visitor check-in and tracking, developing real-time visitor logs and meeting management features.
- Integrated with MongoDB for efficient data storage and retrieval, ensuring core VMS functionality.

**HRMS** | React.js, Node.js, MongoDB, JWT **Sep 2023 – Present**

- Integrated with MongoDB for efficient data storage and retrieval, ensuring core VMS functionality.
- Designed scalable MongoDB schemas handling employee hierarchies, relationships, and core management features.

**ClientConnect - Digital Engagement Platform** | React.js, Tailwind CSS, Node.js **Mar 2025 – Oct 2025**

- Developed a responsive client engagement platform using React and Tailwind CSS, and successfully implemented dynamic content management features.
- Focused on application performance improvements to enhance the user experience.

**KnowledgeHub - Learning Management System** | React.js, Node.js, MongoDB **Jan 2023 – Aug 2023**

- Built the full-stack LMS with course content management and progress tracking, implementing a comprehensive user enrollment system with categorization and search.
- Developed an admin dashboard featuring analytics, user management, and detailed content management tools.

**ShopVista - E-Commerce Platform** | React.js, Node.js, Express.js, MongoDB **Mar 2022 – Nov 2022**

- Developed core modules (shopping cart, user authentication, order management) and built REST APIs for product catalog, inventory, and payment processing.
- Implemented secure session management and robust data validation across 25+ endpoints.

## EDUCATION

**Bachelor of Technology in Computer Science** **Sep 2017 – Aug 2021**

University Institute of Technology, RGPV, Bhopal

## ACHIEVEMENTS & LEADERSHIP

- Contributed as team coordinator for client projects
- Mentored junior developers on MERN stack best practices
- SOPC Lead at Naviriti Technologies
