EDUCATION

- **N.S Raju Institute of Technology**
B.TECH- CSE
2020-2024 9.28CGPA
- **Narayana Junior College**
Intermediate - MPC
2018-2020 9.69CGPA
- **RaviTeja High School**
SSC
2018 9.7GPA

SKILLS

- **LANGUAGES**
C/C++, Java,python
- **TOOLS** : Power BI
- **Web TECHNOLOGIES**
HTML,CSS, Java Script
Bootstrap,
- **DATABASE**
SQL

CERTIFICATIONS

- **HTML, CSS, JAVASCRIPT -**
Coursera
- **Python - Infosys Springboard**

INTRESTS

- Interacting with People
- Practicing Coding
- Solving Riddles which
improving thinking process

LANGUAGES

- English
- Telugu

STRENGTHS

- Good Communication Skills
- Time Management
- Quick learner

ABOUT ME

To secure a challenging position in the field of computer science and engineering, where I can apply my technical expertise and innovative thinking to drive organizational progress and advance my professional journey.

INTERNSHIPS

_Worked in HMI Engineering Service on the course Web development using java and done a project on Credit card fraud detection. Worked on data analytics using excel and powerBI and generated dashboards on production analysis data.

PROJECTS

CREDIT CARD FRAUD DETECTION

Credit card fraud detection is a critical project aimed at preventing financial losses and ensuring the security of transactions. Through data collection, preprocessing, model development, training, and evaluation, a robust system is built to distinguish between genuine and fraudulent transactions.

Streaming Event Registration and Management System with Live Streaming Integration

A Streaming Event Registration and Management System seamlessly integrates event registration, ticketing, and live streaming functionalities into one platform. It enables organizers to create, promote, and manage events while providing attendees with easy registration and access to live streams. Key features include customizable event pages, secure payment processing, attendee engagement tools, and real-time analytics. Integration with popular streaming platforms ensures smooth live streaming experiences. The system supports multi-device access, allowing attendees to join events from anywhere. With robust security measures, it safeguards sensitive data and ensures a seamless user experience.

Achievements

School often give out Certificates, awards to recognize outstanding academic performance, leadership ,sports achievements, or participation in extracurricular activities.

I stood in the top 3 in a acadimics and were awarded a certificate and rewarded by my college.
