

TALLA MANJUNADH KABBA REDDY

Narasaraopet, Palnadu, 522601 | +91 9059264162 | manjunadhtalla313@gmail.com

EDUCATION

Vishnu Institute Of Technology - Bhimavaram

2019 - 2023

Bachelor's Of Technology in Computer Science Engineering

GPA - 7.29

TECHNICAL SKILLS

Programming Languages : Python, Oracle SQL, HTML, CSS

Tools : Visual Studio, Git, Postman

Frameworks: ASP.NET Core, ASP.NET MVC, Entity Framework

Database: SQL Server, MySQL

Other: REST APIs, LINQ, Razor Pages, Agile (basic understanding)

EXPERIENCE

Sira consulting Services - Intern

03 Mar 2025 - 20 Jun 2025

- Designed, developed, and maintained dynamic web applications using C#, ASP.NET, and .NET Core, ensuring high performance, scalability, and maintainability.
- Collaborated cross-functionally with developers and database engineers to implement robust API integrations and efficient database structures using SQL Server.
- Utilized modern development tools and methodologies, including Visual Studio, Git, and Agile practices (Scrum), to streamline workflows and deliver high-quality software on schedule.

PROJECTS

ASP.netcore MVC USING CRUD OPERATIONS

Role-based login system (Admin, HR, Employee)

- CRUD operations for employee records using Entity Framework.
- Search and filter employees by department, designation, and status.
- Leave application workflow and approval system.
- Basic dashboard with employee statistics using charts.

AUTOMATIC DOORBELL WITH OBJECT DETECTION BY AURDUINO

- Developed a deep learning app for ingredient recognition in recipes. Trained a CNN model with ReLU activation on image data, achieving 95% accuracy for mobile deployment."
- Core functionality: Deep learning app for ingredient recognition.
- Training method: CNN model with ReLU activation.
- Data source: Image data.
- Key result: 95% accuracy for mobile deployment.

EDA on Covid Dataset

- Conducted Exploratory Data Analysis (EDA) on a COVID-19 dataset to extract meaningful insights and trends.
- Utilized data visualization tools and techniques to analyze and interpret key metrics related to the spread and impact of COVID-19.

CERTIFICATIONS

- Python for everybody
- Machine learning for all
- AWS Academy Graduate - AWS Academy Cloud Architecting

STUDENT INTERN

- AWS Cloud Virtual Internship - AICTE
-
