PROFESSIONAL SUMMARY

Java Developer with 3+ years of experience in designing, developing, and maintaining scalable Java/J2EE applications. Strong expertise in Spring Boot, Microservices, RESTful APIs, and CI/CD automation for faster and reliable releases. Skilled in backend development and database management with a focus on clean code, performance, and maintainability. Experienced in working within Agile/Scrum methodologies to align with business requirements, deliver features on time, and ensure continuous improvement across the project lifecycle.

SKILLS

- **Programming:** Java, C
- **Frameworks & Tech:** Spring Boot, Spring Cloud, Spring Security, Hibernate, Microservices Architecture
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Clouds/DevOps:** Jenkins, GitLab CI/CD, Docker & AWS(Basics)
- **Tools:** IntelliJ IDEA, STS, Maven, Gradle, Git, JIRA, Confluence, Jaspersoft, Postman, PuTTY
- **Frontend Exposure:** React.js, Angular

EXPERIENCE

- **Intellect Design Arena** Mumbai
Associate Consultant *Jul 2025 - Present*
 - **HDFC CLO IMPLEMENTATION:** Designed and developed loan origination system (Java 17, Spring Boot Microservices, Angular, PostgreSQL, Docker, Kubernetes). Integrated credit bureau and DMS APIs, along with secure authentication, automated CI/CD pipelines, and RM dashboard workflows.
 - **Key Contributions:** Built backend microservices and API integrations, conducted code reviews and unit tests, worked closely with frontend team (Angular).
 - **Performance & Optimization:** Reduced response time by implementing synchronous API calls. Enhanced PDF generation efficiency by using Jaspersoft (.jrxml) templates, significantly lowering the PDF creation time.
- **Vaanara Technologies** Hyderabad
Software Engineer *Dec 2023 - Jul 2025*
 - **Frictionless Restaurant:** Developed AI-powered restaurant recommendation platform (Spring Boot, MySQL). Integrated weather API for personalized menus, optimized backend performance for low-latency response.
 - **Key Contributions:** Implemented backend services with Java/Spring, performed unit testing, optimized database queries, and collaborated with React frontend team.
- **Infinity Webinfo** Delhi
Software Engineer *Jun 2022 - Nov 2023*
 - **Travel Portal:** Developed scalable travel booking microservices (Spring Boot, MySQL, PostgreSQL) with secure payment integration and service discovery.
 - **Key Contributions:** Built RESTful APIs, implemented Spring Security, conducted database performance tuning, and code reviews with JUnit testing.

PROJECTS

- **HDFC CLO IMPLEMENTATION:** End-to-end loan origination platform with document verification, credit/DMS integrations, and workflow automation (Java, Spring Boot, PostgreSQL, Angular, Docker, Kubernetes).
- **Frictionless Restaurant Recommendation:** AI-based dining platform delivering personalized menus using weather and user data (Spring Boot, MySQL, Python, React).
- **Travel Portal Platform:** Travel booking solution including flights, hotels, and holidays with microservices, payments, and cloud storage (Spring Boot, MySQL, PostgreSQL).

EDUCATION

- **Jabalpur Engineering College** Jabalpur, M.P.
B.Tech *2018-2022*
