- Environments: Development, Test, Staging / Pre-Production, UAT, Production

Certifications:

**Post Graduate Certification in Selenium
WebDriver with Java + Frameworks**
[DECEMBER, 2022] - EduBridge

Software Tester

I am a QA Engineer with 3.9 years of experience in both Manual and Automation Testing. My expertise includes Functional, Regression, Smoke, and System Testing among others. I'm proficient in Selenium WebDriver, JIRA, SQL, and API Testing, and have successfully executed over 200 test cases per release, which reduced defect leakage significantly. Familiar with both Agile and Waterfall methodologies, I'm passionate about ensuring high-quality software delivery.

Work Experience

Smart Touch Tech Services LLP, Pune

Software Tester

02/2022 – Present | Pune, Maharashtra, India

Software Testing company focused on quality assurance and test automation

- Developed and maintained automation scripts using Playwright and Selenium WebDriver, improving test coverage across multiple modules.
- Performed end-to-end, functional, regression, smoke, sanity, and UI testing, enhancing overall product stability.
- Analyzed requirements and created clear test scenarios, ensuring accurate validation of customer workflows.
- Executed manual and automation tests and prepared structured reports to support release decisions.
- Generated Playwright HTML reports, increasing defect identification efficiency.
- Utilized GitHub Actions for CI monitoring, workflow validation, and issue tracking.
- Conducted API testing using Postman and JMeter and validated backend data through SQL queries.
- Logged and managed defects in JIRA, ensuring timely developer collaboration and retesting.
- Performed cross-browser testing with Selenium Grid and mobile testing on Android and iOS devices.
- Maintained version-controlled test cases in QA Touch for consistent test cycles.
- Participated in Agile ceremonies, contributing to sprint planning, stand-ups, and retrospectives.
