PROJECTS

Gemini-Ai-Assistant | November 2024 - November 2024

- A web-based chatbot application powered by Google's Gemini AI, built with Flask.

Claude-Assist | November 2024 - November 2024

- Claude-Assist is an intelligent chatbot web application powered by Anthropic's Claude AI. It provides a seamless conversational interface that leverages Claude's advanced language capabilities to deliver helpful, informative responses.

Automated Financial Trading System | May 2024 - July 2024

- Developed a Python-based automated trading system to predict stock futures by analyzing historical data, leveraging machine learning techniques for accurate trend prediction and decision-making.

E-commerce website | October 2023 - November 2023

- Developed and deployed a fully functional e-commerce website on a local server. Features included product listing, shopping cart, user authentication, and secure checkout, ensuring seamless user experience and efficient order management.

AWARDS AND HONOR

- Won First prize in kabaddi, writing and essay competition, at district level.

ACHIEVEMENTS

- Received scholarship in B.Tech/B.E.
- Received scholarship in M.Tech
