EXPERIENCE

Senior Specialist – Revenue Assurance

Solvezy

Noida, Uttar Pradesh

May 2025 – Present

- Collect, clean, and organize financial and operational data from finance systems, bank reports, and seller transaction sources to support accurate reconciliation, improving data processing efficiency by 20%.
- Generate and automate daily, weekly, and monthly revenue reconciliation reports, highlighting pending amounts, received payments, and partner-wise discrepancies.
- Perform end-to-end bank reconciliation, match company books with bank statements, investigate mismatches, and coordinate with relevant teams for root cause resolution.
- Automated payment validation routines using SQL to prevent incorrect settlements for orders with short or missing buyer collections, safeguarding financial data integrity.
- Prepare daily payment advice reports, mapping bank transaction details (seller IDs, UTR, settlement amounts) with internal records to ensure accurate settlements.
- Analyzed FOS data on buyer interactions, lead generation and GMV impact to provide visibility into field performance and revenue contribution.
- Use SQL, Power BI, Advanced Excel, and Python to automate reporting, build interactive dashboards, and streamline reconciliation workflows, enhancing overall data accuracy, reducing errors by 30% and improving reporting speed by 40%.
- Collaborated cross-functionally with Finance, Operations, and Banking teams to support smooth settlement processes and resolve complex data and financial discrepancies.

Data Analyst

Paytm (Innovate Insights Consultancy Pvt. Ltd.)

Noida, Uttar Pradesh

Feb 2024 – Mar 2025
