

# Saikumar Peddipelli

## PROFILE

Passionate UI/UX Designer focused on crafting intuitive, visually engaging, and user-centered digital experiences. Skilled in Figma, Adobe XD, and Photoshop, with a strong belief that great design starts with understanding the user. Dedicated to creating designs that are both beautiful and meaningful.

## CASE STUDY

### • Career Search Application

Developed an educational career guidance platform to help students explore suitable graduation options based on their interests. The design emphasized clarity, discoverability, and ease of navigation. Integrated verified institutional data and a secure online admission process. Focused on delivering an informative, reliable, and user-friendly

### Key Features

- College search by stream, location, or fees
- Admission payment gateway.
- Real-time updates about seat availability.
- Comparison feature between multiple colleges.
- Student profile and saved college list.

- Behance

## EDUCATION

- 2025 ALPHORES JUNIOR COLLEGE
- 2025 VIVEKANANDHA DEGREE COLLEGE COLLEGE (CGPA-7.01)

## CERTIFICATION

- 2025 ELEARN INFOTECH Master's in UI/UX Designing FEB-APR 2025

## SKILLS

- User Interface
- User Experience
- Design System
- User Flow
- Design Thinking
- Information Architecture
- Responsive Design

## PROJECTS

- **COLLEGE STUDENTS APPLICATION**

This Project gave me the opportunity to work on real-world problem solving from planning and designing to implementing features that enhance the student experience. This application is designed to make student life easier and more connected.

**Some of the key features include:**

Student Biodata & Attendance – Track attendance percentage easily. Digital Library – Access study materials and books anytime, anywhere. Transport Department – Real-time bus tracking for student convenience. Focused on user Flow, Simply, and Accessibility.

- **HR DASH BOARD WEB APPLICATION**

Developed a responsive HR Dashboard website that enables organizations to monitor employee activities and manage workforce performance effectively. The platform allows HR administrators to track who is working or inactive, send commands or updates remotely, and communicate directly with employees in real time. Designed with an intuitive and user-friendly interface to improve efficiency, collaboration, and transparency.

**Some of the key features include:**

Designed a dashboard to track which employees are working, idle, or offline in real time. Remote Command Access: Enabled administrators or HR managers to send commands or announcements to employees from any location. Employee Communication System: Integrated a feature for HRs to communicate and broadcast important messages or updates directly. Focused on user Flow, Simply, and Accessibility.

## EXPERIENCES

- **UI/UX DESIGN INTERN, ENUT TECHNOLOGIES PVT LTD**  
**(MAY - OCT 2025 - PRESENT)**

Designed user-friendly web and mobile interfaces using Figma and Adobe XD

Conducted user research and usability testing to improve app and website designs

Created wireframes, prototypes, and high-fidelity mockups for multiple projects

Collaborated with developers and team members to implement design solutions.

Ensured responsive design and consistent UI across platforms
