## PROJECT

### E-Banking (Present)

- Technologies: Java , Spring Boot, Spring Data JPA, Maven,
- RESTfulWeb Services, Angular etc. Database: MySQL 5.0
- Server: ApacheTomcat 8.0
- Description: This eBanking–Online Banking System Project
- is a model Internet Banking Site. This site enables the
- customers to perform the basic banking transactions by sitting
- at their office or at homes through PC or laptop. The
- customers can access the banks website for viewing their
- Account details and perform the transactions on account as
- per their requirements. The primary aim of this software is to
- provide an improved design methodology, which envisages
- the future expansion, and modification, which is necessary for
- a core sector like banking.
