Sangam, Dist : Bidar – 585417, Karnataka, India

## ABOUT ME

Innovative and detail-oriented Computer Science engineering with a strong foundation in **DevOps, Cloud Computing, and Web Development**. Experienced in deploying applications using modern tools like **Docker, Kubernetes, and CI/CD pipelines**. Passionate about solving real-world problems through scalable and reliable software solutions.

## COMPETENCIES

Cloud Computing & Deployment (Docker, Kubernetes, CI/CD)

Web Development (HTML, CSS, JavaScript,)

Backend Systems & Databases ( MySQL)

Programming (Python)

Problem Solving & Team Collaboration

## PROJECTS

### Cloud-Native Application Deployment (2024)

- Designed and deployed a modular cloud-native app using Docker & Kubernetes.
- Automated builds & deployments with CI/CD pipelines to improve efficiency.

### Voice Controlled Assistant (2025)

- Built a Python-based desktop assistant using speech recognition and text-to-speech technologies.
- Integrated browser automation and custom music playback with a modular design.

### Leaf Life – Plant Health Monitoring (2022)

- Implemented backend logic for a plant health monitoring app to promote environmental awareness.

## EDUCATION

### B.E. in Computer Science Engineering

Bheemanna Khandre Institute of Technology, Bhalki

May 2025 / CGPA: 7.0 / 10

### PU Science

NITTUR COMP PU COLLEGE, Bhalki – 2021 / 76.63%

### Secondary School (CBPHS)

Kamalanagar – 2019 / 90.56%

## LANGUAGE

English — Professional proficiency

Kannada — Native (mother tongue)

Hindi — Fluent (excellent spoken )

Marathi (Intermediate)
