## SUMMARY

Java Fullstack Developer around **2 years** of hands-on experience building robust **backend services, optimizing SQL queries**, and delivering seamless frontend interfaces. Proficient in the **Spring ecosystem and relational databases**, with a strong understanding of **API development, system performance, and secure application design**. Collaborative team player with solid analytical skills and experience working in fast-paced **agile environments**.

## SKILLS

**Backend & Databases:** Java (Core, Advanced, Java 8), Spring Boot/MVC/JPA, Hibernate, REST APIs, Cron Schedulers, Interceptors, Spring AOP, MySQL, PostgreSQL, MicroServices

**Web Technologies:** jQuery, JSP, Git, GitHub, Postman

**Interpersonal:** Teamwork, Problem Solving, Communication, Soft Skills.

## EXPERIENCE

### Yiron Technologies

*Software Engineer*

**Chandigarh, INDIA**

*October 2024 – Present*

- Designed and enhanced multi-role HR workflows reducing manual approval errors by **35%** and improving process visibility across HR, IT, Finance, and Operations.
- Optimized multiple slow **SQL queries** and refactored service logic, reducing database calls by **20–30%**, improving **API response time** by **25%**, and increasing overall backend efficiency.
- Built scalable REST APIs using Spring Boot/MVC and modular backend components, and improved overall application performance with clean UI integrations using JSP, jQuery, HTML, and CSS.

### SDNTech Solutions

*Junior Java Developer*

**Noida, INDIA**

*December 2023 – October 2024*

- Worked with frontend teams to define clear API contracts and ensured smooth integration between backend services and UI flows.
- Designed efficient database schemas for large KYC modules, improving data retrieval and reducing redundant records by **20%**.
- Implemented bulk Excel upload handling 10k+ records with optimized validation and batch inserts, reducing database load by **30%**.

## PROJECTS

### Astro Guru

*Java, Spring Boot, Spring JPA, MySql, Lombok, PostMan*

- Built and optimized core Astro-Guru modules including session booking, payments, and user onboarding, reducing API latency by **20%** through query optimization and efficient JPA usage.
- Integrated multiple third-party services (SMS gateway, payment gateway, calling API), automating workflows and improving user engagement and task completion rate by **30%**.

## EDUCATION

### Glocal University

*Bachelor's of Computer Applications*

**Saharanpur, Uttar Pardesh, INDIA**

*June 2019 - June 2022*

### Dr. A.P.J. Abdul Kalam Technical University

*Masters of Computer Applications*

**Lucknow, Uttar Pardesh, INDIA**

*July 2022 - August 2024*

## ACHIEVEMENTS

- Awarded “**The Rookie of the Quarter**” by Yiron Technologies (2025).
- Completed **Java SE Certification** (2022).
