## PROFESSIONAL EXPERIENCE

### Dot Net Developer

#### **Mycard Consultancy and BPO Solutions Private Limited, Navi Mumbai**

Sept 2022 – Dec 2024

- I have experience in developing banking web applications tailored for Cooperative banks, focusing on various modules like NACH, CTS, and UMAC.
- My responsibilities encompassed designing, developing, and maintaining the code for the web banking application.
- I utilized tools such as Visual Studio, Microsoft SQL Server, and Postman throughout the development process.
- Additionally, I designed and implemented the entire project, including front-end web-based application development and .NET REST API calls, and developed responsive layouts using .NET, integrating them with backend APIs, creating RDLC reports.

#### **Quantasis Software company in ghatkopar west, Mumbai Jan**

2025 to Mar 2025

- I have experience in developing application development for product base company
- My responsibilities encompassed designing, developing, and maintaining the code for the application
- I utilized tools such as Visual Studio, Microsoft SQL Server, and Postman throughout the development process.
- I designed and implemented the entire project, including ui parts creating using angular and working for cloud based project

## KEY PROJECTS
