

Adapa Gopi Reddy

Junior DevOps Engineer

Hyderabad, India

adapagopireddy4@gmail.com | +91 8096312154 | linkedin.com/in/AdapaGopiReddy

Career Objective

Aspiring Cloud Trainee Engineer seeking an entry-level opportunity to apply foundational knowledge in cloud computing, automation, and DevOps practices. Eager to contribute to innovative projects, enhance infrastructure reliability, and continuously learn emerging technologies.

Education

Malineni Perumallu Educational Society's Group of Institutions, Guntur, India
Bachelor of Technology in Computer Science and Engineering (AIML) — **78%**

Graduated: Jun 2024

Technical Skills

Programming Languages:	Shell Scripting
Operating Systems:	Linux
Cloud Platforms:	AWS
Containerization:	Docker • Kubernetes
CI/CD Tools:	Jenkins
Infrastructure as Code:	Terraform (Basic)
Version Control:	Git
Monitoring:	Prometheus • Grafana

Projects

Cloud Infrastructure Automation and Monitoring

Dec 2023

- Automated cloud infrastructure provisioning with Terraform, reducing manual setup time by 40%.
- Developed CI/CD pipelines using Jenkins for seamless integration and deployment.
- Configured Docker containers and Kubernetes clusters for optimized performance.
- Implemented Prometheus and Grafana for system monitoring and real-time alerting.

Internship

Kalkey Trainings — DevOps Intern

Jun 2023 – Sep 2023 | Remote

- Assisted in automating deployment pipelines and infrastructure provisioning.
- Worked hands-on with Docker, Kubernetes, and Jenkins CI/CD workflows.
- Enhanced system monitoring using Prometheus and Grafana.
- Documented best practices and supported debugging and performance optimization.

Training & Certifications

- AWS with DevOps Certification** — JSPYDER, Hyderabad
- Site Reliability Engineer Training** — Teamware Solutions

Additional Information

- Passionate about Cloud, Automation, and DevOps technologies.
- Interested in building scalable and observable cloud infrastructures.
- Quick learner with a strong interest in CI/CD and infrastructure automation.
