SUMMARY

Detail-oriented B.Tech IT student with strong skills in Python, SQL, Data Analysis, Power BI, Tableau, and Excel. Certified by Deloitte Australia, IBM, and Great Learning. Skilled in data cleaning, visualization, dashboarding, and problem-solving. Aspiring Data Analyst with hands-on project and internship experience.

INTERNSHIP EXPERIENCE

Python Developer Intern, SkyBrisk Technologies Jun 2024 – Sep 2024

- Developed automation scripts using Python and optimized backend logic.
- Built and debugged live application modules, ensuring reliable performance.
- Collaborated with developers to enhance Python-based backend systems.

Web Development Intern, Amdox Nov 2025 – Jan 2026

- Assisted in UI development and front-end improvements.
- Participated in debugging, documentation, and API testing.
- Contributed to automation and database workflows.

Software Intern, CodeSoft Feb 2024 – Apr 2024

- Worked on Python scripting and small automation modules.
- Assisted in bug fixing, QA testing, and internal tool development.
- Contributed to SQL-based data operations and UI enhancements.

PROJECTS

Python DataFrame Analysis Project

- Analyzed large datasets using pandas, NumPy, and Matplotlib.
- Performed data cleaning, transformation, and insights extraction.

SQL Zomato Order Management System

- Designed SQL schema for restaurants, orders, and customers.
- Executed queries for sales tracking, customer insights, and revenue analysis.

Hotel Management System

- Built Python/SQL-based booking and customer management workflow.
- Implemented room allocation, billing, and check-in/out modules.

Power BI Caller Data Dashboard

- Created an interactive dashboard using caller frequency and duration data.
- Added KPIs, DAX measures, filters, and visual trends for decision-making.

Data Analysis Mini Projects

- Cleaned and analyzed datasets using Python and SQL for insights and trends.

EDUCATION

B.Tech in Information Technology – RTMNU University, Nagpur

- Awarded: Analyst of Data (RTMNU)
- Coursework: Python, SQL, C, C++, Business Management, Data Structures

KEY SKILLS

- Python • SQL • Data Analysis • Power BI • Tableau • Excel
- C • C++ • MATLAB • Problem Solving • Communication Skills
- Data Cleaning • Dashboarding • Time Management

CERTIFICATIONS

- Deloitte Australia – Data Analyst Certificate
- IBM – Data Analyst with Python
- Great Learning – SQL for Data Science
